AERO

WOUND CARE WE MAKE IT BETTER

REDEFINE HEALING WITH AERO

HYPOALLERGENIC

Indicates the product has successfully undergone biocompatibility testing in accordance with the appropriate standard. The product has been tested for Skin Irritation and Skin Sensitivity according to ISO 10993-10 and Cytotoxicity in accordance with ISO10993-5.

LATEX FREE

Indicates that the adhesive and all components of the product are latex free.

WATERPROOF

Indicates a waterproof dressing as opposed to a washproof or breathable dressing. Patients wearing these dressings can safely shower or bath where protection of a wound from water is required.

METAL DETECTABLE

This applies to products for the food handling and processing industries. Finished food products are required to pass through a metal detector to ensure there are no foreign bodies, including dressings, within the finished product.

SUPABOND™ ADHESIVE

Exclusively engineered for unrivalled Hypoallergenic adhesion.

STERILE

Indicates a product which has been sterilised by a relevant method to specified international standards in each country.

Key Features: **Hypoallergenic • Latex Free • SupaBondTM**

AERO WOUND™

AeroWound™ Hydrogel

An amorphous wound gel with adhesion and absorption capabilities. It contains propylene glycol which helps attract and lock in moisture to drier wound environments whilst absorbing excessive exudates. This assists in supporting gentle autolytic debridement of devitalised tissue which promotes faster wound healing.

HYDROGEL 25G

AWH25 | 15cm x 2.5cm x 2.5cm

Carton QTY: 10 | Min Order: 1

AERO WOUND™

AeroWound™ Silicone Wound Contact Layer

An open mesh soft silicone wound contact layer suitable for a variety of wound applications. It allows the pass through of wound exudate and hydrogel while maintaining a constant support to the wound bed minimising trauma from dressing changes.

SILICONE CONTACT LAYER

AWSC10 | 10cm x 10cm

Carton QTY: 20 | Min Order: 1

AEROTM SCAR

AeroScarTM Silicone Scar Patches

AeroScar Silicone Scar Patches are soft, thin and self adhesive patches for the temporary management of existing and new scars

SILICONE SCAR PATCHES 10PK

SUNDRY, STATIONERY & GUIDES

BASIC LIFE SUPPORT

Danger

CHECK FOR DANGER

Always check for danger to yourself, bystanders and the patient. Remove hazards to self and to others.

D

Response

CHECK FOR RESPONSE

Check response to talk & touch for example "are you alright?" or "squeeze my hand". If responsive, leave in comfortable position and monitor.

R

Send for help

If unresponsive, SEND FOR HELP + CALL '000'.

S

Airway

CHECK AIRWAY

If it is blocked, roll casualty on side and use fingers to clear airway. Once unblocked roll back. To open airway, support jaw and tilt head backwards. For infants, move head in line with the body.

A

Breathing

CHECK BREATHING

Look, listen, feel. If breathing normally, place in recovery position and monitor. If not breathing normally, COMMENCE CPR.

B

CPR

COMMENCE CPR

30 compressions: 2 breaths (if trained and willing). Compression rate of 100 - 120 per minute. Adults/Children: 2 hands, up to 1/3 depth of chest. Infants: 2 fingers, up to 1/3 depth of chest. Continue until responsive or breathing normally.

C

Defibrillation

ATTACH DEFIBRILLATOR

Early defibrillation greatly increases a casualty's chance of survival. If a defibrillator is available, attach as soon as possible and follow its prompts.

D

FIRST AID KITS

Compliance Made Easy

Choose your First Aid Kit in 3 simple steps

We design and manufacture our first aid kits to suit in-demand industries and end-user needs with cases and contents selected to meet relevant Australian Federal and State Workplace Safety legislation and regulations. Below you will find a table to facilitate your decision on what products you should acquire for your workplace.

Still not sure?

Scan the QR code below to access our online tool that will direct you to the perfect product according to the needs of your business.

1

CONSIDER THE RISK OF YOUR WORKPLACE

LOW - Workers are **NOT** exposed to hazards that can cause **SERIOUS** injury or illness.
HIGH - Workers **ARE** exposed to hazards that can cause **SERIOUS** injury or illness.

2

HOW MANY WORKERS ARE ON SITE

You should consider the number of workers present when you are at maximum capacity (including visitors and guests).

3

CHOOSE YOUR PREFERRED CASE

Select your preferred case option based on your use case or industry needs

			2	NUMBER OF PEOPLE COVERED				ADDITIONAL COMPLIANCE MODULES

FIRST AID SIGN RANGE

First Aid Signage is a critical part of workplace health and safety requirements. Signs must be clear and easy to read and mounted in visible areas. The Aero Healthcare first aid signage range is comprised of clear and highly visual signs which indicate the location of first aid and/or safety equipment. These signs have been chosen to direct personnel to emergency and first aid related facilities.

THE HEARTSINE RANGE

Sudden Cardiac Arrest can happen to anyone, at anytime, anywhere. Over 300,000 people die globally to sudden cardiac arrest every year. Early application of CPR and AEDs are critical to survival. Aero Healthcare offers a range of the leading AEDs on the market, including the HeartSine samaritan PAD 500P that gives real-time CPR feedback to the rescuer thus maximising the chances of survival.

PUBLIC ACCESS DEFIBRILLATORS & ACCESSORIES

HeartSine™ Public Access Defibrillators

HeartSine™ Defibrillators present the pinnacle of AED technology. From developing the world's first portable defibrillator in the 1960's, to their CPR feedback technology, HeartSine Defibrillators dramatically increase the patient's chances of survival.

RAPIDSTOP
INTUITIVE. STRONG. LIFESAVING.

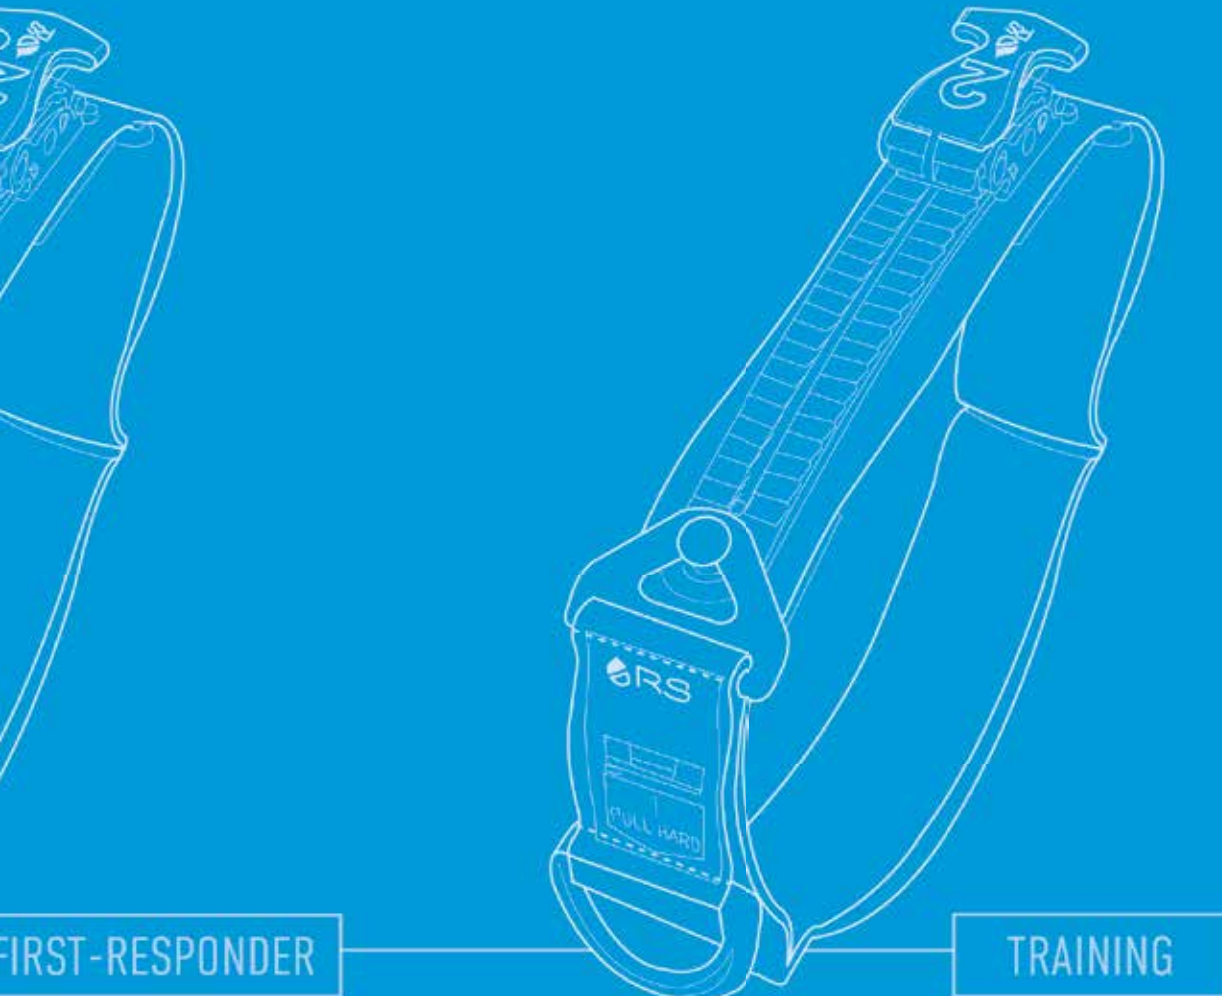

**DESIGNED TO
WORK, FAST.**

The RapidStop® Tourniquet is an award-winning, rapid application tourniquet that maximises the chances of survival. Developed at MIT and perfected by EMS, military and industry specialists. RapidStop® represents a haemostatic solution with military-grade ruggedness, all age suitability, superior single-handed application and the fastest average occlusion time.

POWERED BY

MASSIVE HAEMORRHAGE

MILITARY / TACTICAL

EXTREME SPORTS

RAPIDSTOP

TOURNIQUET

Ratchet mechanical advantage of 8:1; Easier and quicker to achieve high compression forces, particularly necessary for application on upper leg (thigh)

RATCHET

LEVER

Intuitive product-integrated application instruction on Lever (Step 2)

Simple, rapid application around trapped limbs: with just gross motor skills, the RapidStop® Tourniquet Quick-Clasp can be detached and reattached for application around a trapped limb - no dexterous strap routing required. 'QUICK-CLASP' can be opened and closed easily even when wearing gloves

QUICK-CLASP

STRAP

Minimum 600N tensile strength: 200N is typically the largest tensile force needed in a tourniquet to fully occlude blood flow in large thigh application. RapidStop® Tourniquet is designed with a minimum 3x factor of safety;

RapidStop® Tourniquet is designed for limb sizes circumference from 17.8cm / 7" (83.8cm / 33") this equates to the 1st percentile of female upper arm sizes up to the 99th percentile of male upper thigh sizes; encompassing the vast majority of adult limb sizes

Intuitive product-integrated application instruction on Label (Step 1)

LABEL

Time record label located behind d-ring strap, below quick-clasp

TIME-RECORD

Mil-W-17337 spec; 3.8cm / 1.5" wide with 8,000N breaking strength and superior abrasion resistance

D-RING

Large, rugged D-ring 5.1cm / 2" width (3.8cm / 1.5" height) makes it simple and quick to grasp

Instantaneous one-handed cinch vastly improves time to occlusion in all application scenarios. Easy and quick to apply; requires no stabilizing hand and supplies a mechanical advantage of 2:1 prior to effecting tightening mechanism [NOTE: a poorly-performed initial cinch is a typical cause for a tourniquet application failure.]

EASE OF USE

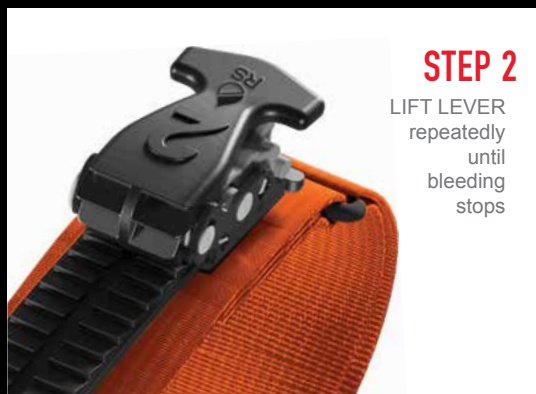

RapidStop® Tourniquet

The RapidStop® Tourniquet allows for easy, single-handed application with the use of only gross motor control, ideal for fast self-application. The instantaneous one-handed cinch vastly improves time to occlusion. Combined with product-integrated application instructions, the RapidStop® Tourniquet enables an untrained user to apply the tourniquet with speed and reliability in an easy 3-step process:

STEP 1

PULL
D-RING
firmly until
snug

STEP 2

LIFT LEVER
repeatedly
until
bleeding
stops

STEP 3

Record time,
WRAP &
TUCK excess
strap

INTUITIVE. STRONG. LIFESAVING.

STANDARD ORDER TERMS AND CONDITIONS

Prices: All prices are exclusive of GST.

Products: Items exempt from GST are marked *.

PAYMENT TERMS:

For Approved Trading Accounts: within 30 days of the following month.

Cash Accounts: Payment required on pro-forma invoice. Goods despatched after receiving the cleared funds.

Failure to meet payment terms, without prior agreement from Aero Healthcare accounts department, may result in the immediate termination of supply of all orders and appropriate account recovery measures will be taken.

PAYMENT OPTIONS:

Aero Healthcare accepts the following payments:

- EFTPOS
- Cheque
- Credit Card (2.5% surcharge applies when settling Credit Accounts)
- For payment of orders prior to despatch, no credit card surcharge applies

- Direct Debit (details below)

Account Name: Aero Healthcare

BSB: 012-510

Number: 350 442 968

Remittance Advice: accounts@aerohealthcare.com

FREIGHT TERMS:

All pricing includes freight into your designated warehouse with the exception of any order less than the required minimum value of \$750.00 ex. GST.

These shipments will incur a delivery surcharge of \$25.00 + GST.

Orders requiring express or air delivery are available, subject to a surcharge.

All plain cover deliveries are subject to a surcharge of \$25.00 + GST.

Where dangerous goods products are ordered, a dangerous goods freight charge of \$25.00 will incur.

RETURNS POLICY:

When returning goods, please obtain an authorisation number from Aero Healthcare Customer Service.

Only returns authorised by Aero Healthcare will be credited. All returns will be subject to count and inspection upon receipt, before the credit is processed.

No claim will be recognised unless made in writing within 14 days of invoice date.

All returned goods must be in the same condition that they were despatched from Aero Healthcare. No credit will be given on damaged goods.

In cases where goods have been supplied correctly, freight on the goods, as well as the return freight, will be charged to the purchaser and deducted from the claim amount.

A re-stocking fee of 10% will be applied, based on the order value of the invoice for the incorrect goods wishing to be returned.
