TRI-PLY STAINLESS STEEL

Resto stainless steel pans with Tri-ply technology consist of three layers of modern, performance enhancing materials:

- **LAYER 1** is the top layer of a strong 18/10 stainless steel with a coating of honeycomb pattern technology providing extreme scratch resistance.
- **LAYER 2** is the middle layer of aluminium which has excellent thermal conductivity, contributing to the rapid and uniform distribution of heat over the entire cooking surface.
- **LAYER 3** is the final outer layer of stainless steel forms a full induction bottom to the pan.

ADVANCED NONSTICK TECHNOLOGY

Stainless steel etching honeycomb pattern texture protects the underlying non-stick coating, so you can use these pans safely with any utensil including metal whisks, spoons, and spatulas. They won't scratch the nonstick surface. The nonstick interior allows you to cook confidently without worrying that food will stick.

TRI-PLY (stainless steel + aluminum + stainless steel)

Starburst finishing on the pan's stainless-steel interior ensures stick resistance and never reacts with food. The full, heavy-gauge aluminum core extends across the bottom and up the sides of the pan for the best heat distribution. Induction stainless steel exterior is dishwasher and oven-safe and provides easy clean up.

QUICK AND EVEN HEATING

Stainless steel frypans like these are perfect for a quick heating of your meal and so they are just what you need when frying meat and fish. But whatever it is you need to quickly whip up, this pan is sure to be your perfect little helper. It will make sure that all your dishes are crisp on the outside but at the same time keep all of the important juiciness on the inside.

EXTENDED SERVICE LIFE

The high quality of stainless steel used is an extremely hard-wearing and durable material meaning that you can rely on this pan for years to come. Designed to withstand repeated usage even in the most demanding kitchens, this cookware is ideal for home and professional cooks who want the utmost in quality and performance.

CRATER Collection

Frypans

CORVUS Collection

Casseroles

The Corvus Collection brings together professional-level performance and refined, contemporary design. Made with full TRI-PLY construction using 18/10 stainless steel and an aluminum core, each piece ensures quick, even heating while improving energy efficiency and long-term durability. Thoughtfully engineered for everyday cooking, the collection is completely free from PTFE, PFAS, and BPA. It includes ergonomic stainless steel handles for a comfortable grip, a sturdy anti-deformation base for lasting shape, and an integrated measurement scale for added precision. Corvus works on all types of cooktops, including induction. It is also dishwasher safe and oven safe up to 220 °C, making it a reliable choice for cooks who value quality and versatility in every meal.

- **10-YEAR WARRANTY**
- **COMPATIBLE WITH ALL HOB TYPES INCLUDING INDUCTION**

HEALTHY COOKING

What you cook with matters just as much as what you cook. That's why we choose materials that are safe, certified, and free from anything that doesn't belong in your kitchen. Our cookware contains no BPA, no PTFE, and no PFAS — just clean, reliable surfaces you can trust for everyday meals.

TRI-PLY (stainless steel + aluminum + stainless steel)

Each piece in the Corvus Collection is built with a TRI-PLY body, combining three layers — stainless steel on the inside and outside, with aluminum in between. This smart construction delivers the best of both materials: the durability and strength of stainless steel, plus the fast, even heat distribution of aluminum.

QUICK AND EVEN HEATING

Our cookware is designed to heat up quickly and distribute heat evenly, so you get consistent results without hot spots. This not only improves your cooking experience but also helps you save time and energy with every use — making your kitchen more efficient in every way.

EXTENDED SERVICE LIFE

Crafted from high-quality stainless steel, this cookware is exceptionally durable, hard-wearing, and designed to withstand years of daily use even in the most demanding kitchen environments. Whether you're a home cook or a professional, you can count on consistent performance, lasting quality, and effortless reliability. And for even greater peace of mind, every piece is backed by a 10-year warranty.

MIZAR Collection

Frypans

Designed for cooks who expect more, the Mizar Collection delivers reliable, professional-level results wrapped in a clean, modern aesthetic. Its advanced TRI-PLY body, crafted from premium 18/10 stainless steel with an aluminum core, promotes quick and even heat distribution, helping reduce energy use while ensuring lasting performance. Every detail is made with everyday cooking in mind. The collection is BPA-, PTFE-, and PFAS-free, offering a safer choice for the kitchen.

Ergonomic stainless steel handles provide a secure, comfortable hold and include practical hanging loops for easy storage. A reinforced base keeps each piece stable and resistant to warping, while full compatibility with all stovetops, including induction, adds flexibility. Easy to care for and built to endure, Mizar cookware is dishwasher safe and oven safe up to 220 °C, making it a smart, dependable solution for kitchens that value both performance and versatility.

- **10-YEAR WARRANTY**

ADVANCED FOOD SAFETY

We care about what comes into contact with your food. That's why our products are completely BPA-free, PTFE-free, and PFAS-free — free from harmful chemicals often found in conventional cookware. Every item is crafted with safe, food-contact-approved materials, so you can cook with confidence, knowing your health is always a priority.

TRI-PLY (stainless steel + aluminum + stainless steel)

Our TRI-PLY body features a full 3-layer construction — stainless steel, aluminum, stainless steel — combining the strength and durability of steel with the fast, even heat distribution of aluminum. This advanced structure ensures superior cooking performance, energy efficiency, and long-lasting reliability for everyday use.

QUICK AND EVEN HEATING

Our cookware heats up fast and distributes heat evenly across the entire surface, eliminating hot spots and ensuring perfect results every time. This efficient performance not only speeds up your cooking but also helps reduce energy consumption — saving time and power with every use.

EXTENDED SERVICE LIFE

The high quality of stainless steel used is an extremely hard-wearing and durable material meaning that you can rely on this pan for years to come. Designed to withstand repeated usage even in the most demanding kitchens, this cookware is ideal for home and professional cooks who want the utmost in quality and performance.

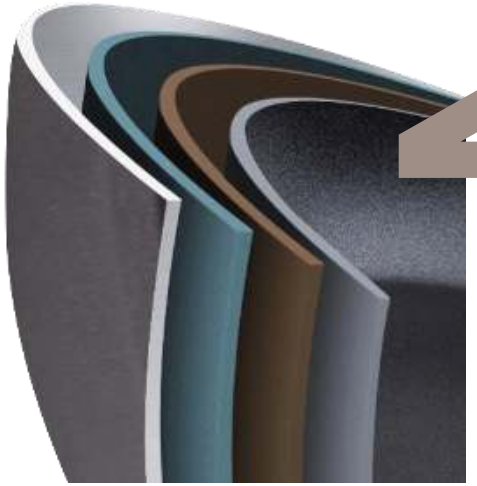

FORGED ALUMINIUM

4 LAYERS NON-STICK COATING

- BASE FOR ULTRA-HIGH RESISTANCE AND DURABILITY
- ANTI-ABRASION LAYER FOR DURABILITY
- FINISH LAYER FOR NON-STICK PERFORMANCE
- NON-STICK SURFACE

FORGED ALUMINIMUM provides even heat distribution and is corrosion resistant making it an ideal substrate for cookware. Uniquely shaped thicker base evenly enhances heat distribution of the cookware with no hot spots so you can be sure of perfectly cooked dishes every time. Aluminium also offers a light weight option for your cookware and can be used on all hob types: induction, gas, electric, ceramic, halogen. All Resto forged aluminium pans are easy to care for, easy to clean and dishwasher safe. A specially designed external heat-resistant coating protects the surface from carbon deposits, facilitates maintenance and maintains its original appearance for a long time. It differs from press aluminium pans with thicker walls and a multilayer bottom. All of these factors combine to massively optimize the cooking experiences, so you can depend on your robust Resto pans for years to come and long into the future.

Resto forged aluminium cookware is made using 4-layer Pfluon non-stick coating. Create stunning home meals with ease and cleaning is a breeze thanks to the super non-stick layers. Innovative four-layer Pfluon non-stick coating is durable and highly abrasion and scratch-resistant, allowing you to cook without adding oil and providing long-lasting non-stick performance and service life.

ANTARES Collection

Frypans

With strong Asian roots, the wok dates all the way back to the Chinese Han dynasty. Traditionally it is a round-bottomed, high-walled pan, although flat-bottomed versions are gaining popularity as they can be used on standard ranges.

That is what this Antares pan offers you - the meeting of old and new - traditional cooking but adaptable to modern kitchens so that you are able to cook up the most famous Asian dishes we all love right at home where you are now. So grab your noodles and onions, rice and egg, and get cooking and be sure that you are going to impress any guests you choose to invite over with your new Antares wok.

CLASSIC WOK WITH INTERNAL NON-STICK COATING

Crafted with a 4-layer Pfluon non-stick coating, the Antares wok, with its classic design, ensures longevity due to the abrasion-resistant coating. It demands minimal oil, allowing you to maintain the healthiness of your dishes regardless of your cooking choice. Additionally, the pan is PFOA-free.

EXTERNAL HEAT-RESISTANT COATING

Equipped with an external heat-resistant coating, this Antares wok prioritizes safety by ensuring both you and surrounding objects are shielded from potential burning or deformation. This commitment to safety is just one of the many ways we consistently prioritize our customers' well-being in our product designs.

ERGONOMIC SOFT-TOUCH HANDLES

Designed with ergonomically shaped handles boasting a soft-touch finish, these pans ensure comfortable use. Our commitment is to craft products that seamlessly integrate into your lifestyle, optimizing functionality. The convenient hanging loop on the handle allows for easily suspending the frypan when not in use..

INDUCTION BOTTOM

All Antares frypans are fortified with an anti-deformation disk at the bottom, guaranteeing a surface that maintains its shape even with regular use. These frypans are compatible with induction cooktops and also work seamlessly on gas, electric, vitroceramic, and halogen cooktops, showcasing their exceptional adaptability.

ANTLIA Collection

Frypans

Some of us simply want cookware that is easy to use and delivers the goods. Ideally suited for cooks of all skill levels, these Antlia pans do just that. The deep frying pans feature intricate design elements, gently sloped sides and come with a reinforced non-stick marble coating, meaning that they are both easy to use and will last you long into the future. Count on them for everything from scrambling eggs and sautéing vegetables to searing meats and more. Made of forged aluminium which ensures excellent heat conduction, uniform cooking and is corrosion-resistant, it really is the perfect partner for cooking up your favourite dishes.

It is supremely versatile and can be used on all hob types: induction, gas, electric, ceramic, halogen.

INTERNAL NON-STICK GRANITE COATING

Made using 4-layer Pfluon non-stick coating, this Antlia frying pan will offer you the longevity you need thanks to the abrasion resistant marble coating, and it will require such little oil that you can always keep your dishes as healthy as possible, no matter what you are cooking. The pan is PFOA-free.

EXTERNAL HEAT-RESISTANT COATING

This Antlia pan comes with external heat-resistant coating, which means that both you and any other objects that might be surrounding the pan, are kept as safe as possible and free from any possibly burning or deformation. This is just one of the many ways that our products are always made with the safety of our customers first and foremost in mind.

ERGONOMIC SOFT-TOUCH HANDLES

These pans feature ergonomically shaped handles with soft-touch finish for comfortable use. We craft products that you know are only going to function in a way that optimizes your lifestyle. Aluminium inserts in the handle add stylish visual accents to the design of your kitchen and the little hole on the handle allows you to hang the frypan up.

INDUCTION BOTTOM

The bottoms of all Antlia frypans are reinforced with an anti-deformation disk to ensure a surface that won't deform with use. They are induction compatible frypans that work on induction, gas, electric, vitroceramic and halogen cooktops, meaning that the range is super adaptable.

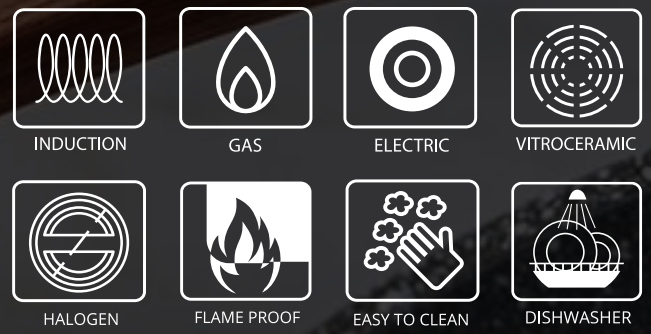

AQUILA Collection

Frypans

These days we all want to try to replicate the kind of high standards in the kitchen that we see being reached by top chefs on our television screens. But we want to be able to do this with a sense of ease and without the industrial kind of look that is found inside restaurant kitchens. Fortunately, this Aquila range helps you do just this. It is a uniquely shaped deep frying pan that features an internal non-stick granite coating and also offers you a lightweight option for your cookware. This means that you can use it for long periods and know that the clean-up afterward will be as easy as the cookware itself is easy to handle.

It can be used on all hob types: induction, gas, electric, ceramic and halogen.

- **INTERNAL NON-STICK GRANITE COATING**

Aquila Collection

INTERNAL NON-STICK GRANITE COATING

Made using 4-layer Pfluon non-stick coating, this Aquila range provides excellent release, and makes for superb cooking but also cleaning-up experience. Simply give them a quick wash and hang these pans up to dry. The superior durability of these pans also means that no matter how often you use them you can depend on them to do you a good job time and time again.

EXTERNAL HEAT-RESISTANT COATING

With this Aquila range, the pans come with an external heat-resistant coating so that the surface is protected from burning. This means that your kitchen will maintain that fresh 'good as new' look to it, and so you are kept in the right frame of mind for producing your best-come preparation time.

ERGONOMIC SOFT-TOUCH HANDLES

Wood-like handles provide a perfect homely aesthetic touch but also come with a convenient hinge for hanging, allowing you to organize the workspace in your kitchen in the best way. The soft-touch handles mean that you are kept comfortable during the cook, and, when all is done, simply wash and hang to dry at a moment's notice.

INDUCTION BOTTOM

The bottoms of all Aquila frypans are reinforced with an anti-deformation disk to ensure a surface that won't deform with use. They are induction compatible frypans that work on induction, gas, electric, vitroceramic and halogen cooktops, meaning that the range is super adaptable.

ARIES Collection

Frypans

The Aries frying pan is an innovative, modern, and versatile deep frying pan induction wok. Made from forged aluminium, which provides even heat distribution and is corrosion-resistant, this uniquely shaped pan also offers you a light weight option for your cookware and can be used on all hob types: induction, gas, electric, ceramic, halogen.

The Aries then is not only a beautifully constructed item, which is bound to optimize and improve your cooking experience, but it is also deeply versatile and can be used in any kitchen, no matter what appliances it has.

Aries Collection

DEEP FRYING PAN

We know that when cooking you want options. With this Aries pan we have made sure that you can use it to cook all your family's favorite dishes from bolognese, casseroles and pasta to stir-frys and risottos. So no matter what the occasion is, know that this Aries pan is your trusty companion.

4-LAYERS NON-STICK MARBLE COATING

These pans not only come with a beautifully speckled and dappled finish but also a specially designed 4-layer Pfluon non-stick coating. This includes a base for ultra-high resistance and durability, a layer that is anti-abrasive, a second layer that leads to non-sticking and further added non-stick surface.

COMFORTABLE ERGONOMIC DETACHABLE HANDLE

The Aries series frying pans are equipped with a removable handle, which makes it much easier to store the frying pan in the refrigerator or a small drawer. Detachable handles allow you to use the pan not only on the hob but also in the oven. Without a removable handle, dishes can easily fit into a small dishwasher.

INDUCTION BOTTOM

Cooking with an induction cookstove is undeniably a very beneficial thing to do. Induction compatible pans also work on gas, electric, radiant, and smooth cooktops, meaning that not only is your Aries pan giving you all of the benefits listed above but it is also massively adaptable.

ATIK Collection

Frypans

After lengthy stages of consulting professional chefs, where we broke down the industry assumptions and reconnected with the basic principles of what it takes to prepare great food, we created our ATIK collection. Challenging the notions that lie behind the design of traditional cookware, we have shifted the angles, switched the materials, and optimized the results, to give you the ultimate cooking experience.
When in the comfort of your own home, you still want to make sure that the utensils you use compliment your kitchen well. To ensure this, all our frypans have a modern design and fit perfectly into the interior of your kitchen. The sleek nature of these pans make them easy to use but also easy on the eye too.

- **MODERN DESIGN**
- **NON-STICK INTERIOR MARBLE COATING**

Atik Collection

NON-STICK INTERIOR MARBLE COATING

With this pan you can cook with a minimum amount of oil due to a three-layer durable and highly abrasion-resistant non-stick marble coating. This water based non-stick interior marble coating doesn't contain Cadmium, Lead, or Perftroc-tanoic Acid (PFOA).

EXTERNAL HEAT-RESISTANT COATING

A specially designed outer coating protects the surface from carbon deposits, facilitates maintenance and maintains its original appearance for a long time. It differs from press aluminium pans with thicker walls and a multilayer bottom. This coating will ensure that your pan will remain reliable and saves you time by being so easy to clean.

COMFORTABLE ERGONOMIC SOFT TOUCH HANDLE

The handle is made of high-quality plastic, which prevents heating and ensures safe cooking on all types of stoves. The special ergonomic shape of the handle prevents slipping and is comfortable to use. A convenient hinge for hanging allows you to organize the work space in your kitchen in the optimal way.

INDUCTION BOTTOM

Unlike standard pans, the induction bottom of all Atik frypans is reinforced with an anti-deformation disk which makes their lifetime longer and guarantees resistance to deformation under heating. They work on all heating surfaces: gas, electric, halogen, ceramic glass and induction cooktops.

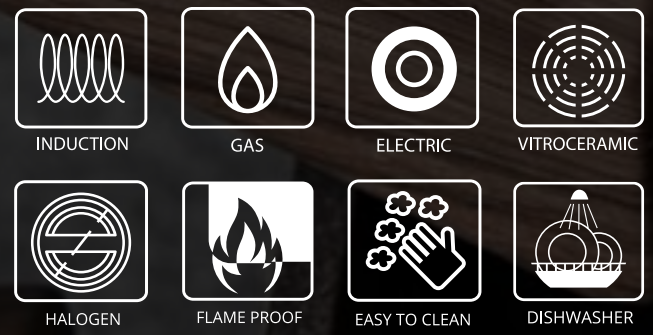

CARINA Collection

Frypans

This Carina range of frying pans, casseroles and knives offers you the ultimate in stylish cooking. These days with all the cooking programs we watch, we want our kitchens to look like the professionals at the top of their game. We also want our kitchens and their careful interior design to not be brought down a peg by ugly-looking cooking utensils. That is why this Carina collection is designed with a stylish bronze-colored coating and wood effect handle.

Made of forged aluminium which provides even heat distribution and is corrosion resistant, it is uniquely shaped and offers a light weight option for your cookware and can be used on all hob types: induction, gas, electric, ceramic, halogen.

EXTERNAL HEAT-RESISTANT COATING

A specially designed outer coating protects the surface from carbon deposits, facilitates maintenance and maintains its original appearance for a long time. It differs from press aluminium pans with thicker walls and a multilayer bottom.

4-LAYERS MARBLE COATING WITH GOLD DOTS

These pans not only come with a beautifully presentable gold dotted pattern but also a specially designed 4-layer Pfluon non-stick coating. This includes a base for ultra-high resistance and durability, a layer that is anti-abrasive, a second layer that leads to non-sticking and further added non-stick surface.

ERGONOMIC SOFT-TOUCH WOODEN HANDLE

These Carina models are obviously exceptional objects to look at and will provide an excellent accompaniment to any kitchen no matter the design. They are also uniquely pleasant to touch and handle which will make them a joy to work with. They have a convenient hinge for hanging, allowing you to organize the workspace in your kitchen in the best way.

INDUCTION BOTTOM

Induction compatible pans also work on gas, electric, radiant, and smooth cooktops meaning that the Carina range is super compatible with any kind of kitchen no matter what the appliances or their format are. The bottom of all Carina frypans is reinforced with an anti-deformation disk which makes their lifetime longer and guarantees resistance to deformation under heating.

CAS Collection

Frypans

We are now at a stage where 'environmental' does not have to mean second best. It is possible these days to craft products that not only help to conserve our natural environment and planet, but which also function to the highest possible level, even when compared with products made with less of an eye on all things green. These Cas frypans prove this exact point.

Cas frypans are made of recyclable aluminium which ensures excellent heat conduction, uniform cooking and is corrosion-resistant, and all of this while being eco-friendly of course. They can be used on all hob types: induction, gas, electric, ceramic, and halogen, meaning that no matter the layout of your kitchen, a Cas frying pan is the perfect choice for those who want long-lasting, reliable cookware, that helps conserve our ecosystem.

Cas Collection

CERAMIC NON-STICK COATING

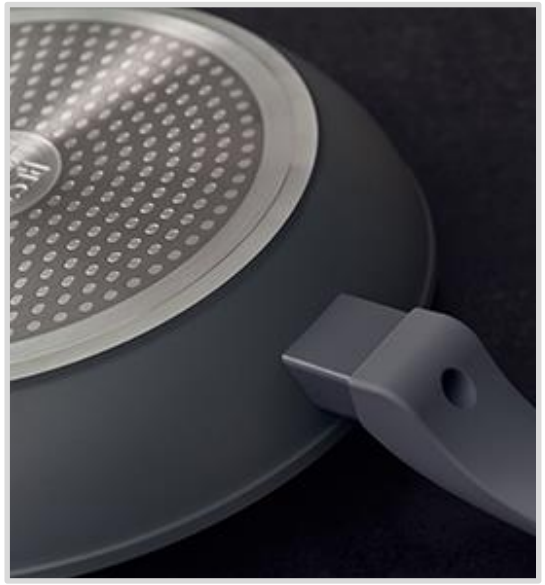

Cas range comes with a ceramic non-stick internal coating. In addition to this, the pans are PFAS-free, which means that they are free from the toxic chemical and keep both you and the environment safe.

EXTERNAL HEAT-RESISTANT COATING

The external heat-resistant coating on this is something that you will thank us for. It ensures that temperatures are kept under control, so that your pan remains free from any dark markings - keeping your kitchen, and your cookware, neat and tidy.

COMFORTABLE ERGONOMIC SOFT-TOUCH HANDLES

We were very careful during the design stages to construct ergonomically shaped handles that fit perfectly in your hand with a soft-touch finish, so that it's comfortable to hold. We have also included a loop for hanging to make sure that you are able to keep your kitchen ultra-tidy and ensure that this pan did not create any clutter.

INDUCTION BOTTOM

Cas pans, compatible with induction, also function seamlessly on gas, electric, radiant, and smooth cooktops. This means your Cas not only offers the benefits mentioned above but also adapts effortlessly to any kitchen, regardless of the appliances' nature. An anti-deformation disk enhances their lifespan, ensuring resistance to deformation under heating.

LEO Collection

Frypans

Our Leo frying pan is an exceptionally innovative, modern, and massively versatile deep frying pan and induction wok. Created out of the special material of forged aluminium which provides even heat distribution and is corrosion-resistant, it is an easy-to-use and incredibly durable collection.
The uniquely shaped aluminium also offers a light weight option for your cookware and can be used on all hob types: induction, gas, electric, ceramic, halogen. The result of all of this is a pan that will be a joy to use no matter the food you choose to cook or the appliance you have in your kitchen.

Leo Collection

DEEP FRYING PAN

We have created this Leo pan which offers you a device for cooking a vast range of meals. This means that you will be more than capable of rustling up your family's favorite dishes from bolognese, casseroles and pasta to stir-frys and risottos.

4-LAYERS NON-STICK MARBLE COATING

These pans not only come with a wonderfully stylish white speckled finish but also a specially designed 4-layer Pfluon non-stick coating. This includes a base for ultra-high resistance and durability, a layer that is anti-abrasive, a second layer that leads to non-sticking and further added non-stick surface.

COMFORTABLE ERGONOMIC DETACHABLE HANDLE

We at Resto have taken the responsibility of taking care of saving space in your kitchen. That is why the Leo series frying pans are equipped with a removable handle, which makes it much easier to store the frying pan in the refrigerator or a small drawer. A detachable handle allows you to use the pan not only on the hob but also for the oven.

INDUCTION BOTTOM

Induction compatible Leo pans also work on gas, electric, radiant, and smooth cooktops, so not only will your Leo provide you with all the benefits listed above but it is also supremely adaptable to any kitchen no matter the nature of the appliances. An anti-deformation disk makes their lifetime longer and guarantees resistance to deformation under heating.

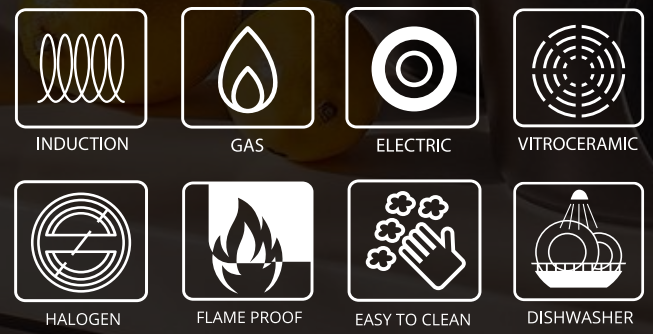

MON Collection

Frypans & casseroles

This stylish, eco-friendly collection of casseroles and frypans, made of recyclable aluminum, is the perfect addition to your modern kitchen. We wanted to create a range that fits well with newer models of kitchens, with their minimal sleek looks but also retains a strong nod to fashionable interior design.

All of the pans in the Mon collection come with a reinforced non-stick coating to prevent your food from sticking to the pan. They are PTFE-free, keeping you far away from any of those toxic 'forever chemicals.' Additionally, they come with ergonomic, soft-touch handles with wood-like inserts, making them both stylish and comfortable.

- **INTERNAL NON-STICK COATING**
- **ERGONOMIC WOODEN SOFT-TOUCH HANDLES**
- **EXTERNAL HEAT-RESISTANT COATING**
- **CASSEROLES COME WITH GLASS LIDS**
- **INDUCTION BOTTOM WITH ANTIDEFORMATION DISK**

Mon Collection

REINFORCED NON-STICK COATING

This Mon range comes with a 4-layer PFLUON non-stick coating. It is abrasion-resistant, preventing unsightly scratches from appearing. The pans require little or no oil, and are PTFE-free, keeping all those toxic 'forever chemicals' as far away from you and your food as possible.

EXTERNAL HEAT-RESISTANT COATING

In this collection, we have taken measures to layer the pans with an external heat-resistant coating. This coating serves to safeguard the surface from burning, preventing the formation of marks and burns that could compromise the quality of your cooking experience.

ERGONOMIC SOFT-TOUCH HANDLES

The Mon range is crafted with ergonomically shaped handles that incorporate a soft-touch coating and wood-like inserts. Additionally, it includes a designated loop for hanging, promoting kitchen organization.

INDUCTION BOTTOM

The Mon collection is designed to work seamlessly with induction cooktops. These frypans are not just limited to induction but also perform well on gas, electric, vitroceramic, and halogen cooktops, making the range incredibly versatile. Regardless of your kitchen setup, it's a perfect fit for different cooking environments. Plus, every Mon frypan is equipped with a reinforced bottom featuring an anti-deformation disk, ensuring a durable surface that won't lose its shape over time.

Mon Collection

REINFORCED NON-STICK COATING

Crafted with a 4-layer Pfluon non-stick coating, the surface of this cookware range delivers outstanding release, exceptional durability, and effortless cleanup. Engineered for longevity, this collection inherently supports its durability. The non-stick surface minimizes food adhesion, translating to less time spent at the sink for you.

EXTERNAL HEAT-RESISTANT COATING

In the Mon range, we've ensured that the casseroles are coated with an external heat-resistant layer. This coating shields the surface from burning, preventing the formation of marks and burns that could compromise the overall cooking experience.

GLASS LID

A glass lid, complemented by a wood-like knob, features a silicone rim and a special steam outlet. The silicone rim is specifically designed not to scratch or damage the non-stick surface of the cookware.

ERGONOMIC SOFT-TOUCH HANDLES

Crafted with ergonomically shaped handles, these pans ensure a cool touch on the stovetop. The thoughtful design prevents the handles from getting hot, allowing you to cook with confidence without the fear of burning your fingers.

INDUCTION BOTTOM

This Mon range is fully induction compatible. These frypans work on induction and also on gas, electric, vitroceramic and halogen cooktops, meaning that the range is super adaptable.

SAGITTA Collection

Frypans

Sagitta frying pan is the result of high-quality design to produce the ultimate in functionality. Made from premium aluminium, Sagitta is a durable and reliable kitchen essential. The advanced PFOA free nonstick surface provides high cooking performance and excellent food release. It also allows you to use less oil or butter for healthy, low-fat cooking. Designed for an outstanding durability, the exterior heat-resistant coating provides easy cooking and effortless cleanup.

Manufactured with the finest materials and workmanship, Sagitta frypans deliver the best quality and value to the cooking professional and enthusiast alike.

ENERGY-SAVING COOKING PROCESS

We have designed the bottom of these pans with a unique multi-layer bottom structure so that only the minimum amount of energy is required, saving your planet and your gas bill! This technology will also ensure the uniform heating of the entire pan from beginning to end.

4-LAYERS NON-STICK COATING

This pan comes with a coating that will prevent your food from sticking and scorching. It also contains no PFOA (perfluorooctanoic acid) and has been created without zinc and without cadmium. This means that it can easily withstand heating up to 275 degrees Celsius and with its increased wear resistance, it is built to maintain its high performance over 20,000 abrasion cycles.

ERGONOMIC SOFT-TOUCH HANDLE

The ergonomic handle with a special Soft-touch coating of this pan means that it will ensure the perfect cooking experience.

REINFORCED BOTTOM WITH AN INDUCTION DISK

Because sometimes pans can get knocked about in the kitchen, we have ensured that all our pans come with reinforced bottoms. And not only is this pan built to last, it's also built to function on every surface. These days so many hobs operate by induction and with its high thermal conductivity, this pan is suitable to perform highly on all types of stoves, including induction hobs.

SAVE & STOCK Collection

Multifunctional Cookware Set, 8 pcs

This smartly designed, multifunctional stackable cookware set combines premium performance with space-saving convenience. Made from recycled forged aluminum, each piece is finished with the RestoTi+ titanium ceramic non-stick coating, offering exceptional durability and effortless food release. The entire set is completely free from PTFE and PFAS, making it a safer choice for everyday cooking.

The set features a soft-touch ergonomic removable handle with a hanging loop, one standard glass lid, and a universal 3-in-1 glass lid (fits Ø16/18/20 cm), both equipped with silicone rims and steam vents. Cookware bases are strengthened with anti-deformation discs to maintain their shape and stability over time. Compatible with all stovetops, including induction, and thoughtfully designed for compact storage — perfect for kitchens where space matters and every meal counts.

SMART STACKABLE DESIGN

Thanks to its clever stackable construction, this set helps you save up to 50% of your kitchen storage space. Whether you have limited cabinet room or just love an organized setup, the compact nesting design keeps your cookware tidy, accessible, and perfectly in place — no compromise on quality or convenience.

TRANSPARENT MAGIC OF TITANIUM

The transparent reinforced titanium ceramic non-stick coating RestoTi+ combines elegance with advanced technology. Titanium nanoparticles make it ultra-durable, heat-resistant, and long-lasting, providing perfect non-stick performance. The coating gives your cookware a refined, premium look, makes cooking and cleaning effortless, and brings a touch of luxury and perfection to your kitchen.

COMPLETE COOKWARE SET

This versatile set includes everything you need for everyday cooking and more: a shallow pan, a frying pan, two saucepans, and a generously sized pot. Whether you're whipping up sauces, simmering soups, frying vegetables, or slow-cooking your favorite meals, each piece is designed to handle a variety of cooking tasks with ease. It’s the ideal all-in-one solution for a well-equipped kitchen.

EVEN HEAT DISTRIBUTION

Heat spreads evenly across the surface for consistent cooking and reliable results. It helps prevent hot spots and supports long-lasting performance.

Save & Stock Collection

SMART LID DESIGN WITH FOLD-DOWN KNOB

The set includes a standard tempered glass lid and a universal 3-in-1 tempered glass lid that fits cookware with diameters of 16, 18, and 20 cm. Both lids are equipped with silicone rims for a secure seal and steam vents for safe pressure release during cooking. A standout feature is the fold-down knob, which can be easily lifted up for use or pressed flat for compact storage. This clever detail not only saves space in your cabinets but also allows for more convenient stacking and organization.

CLICK-AND-LOCK DETACHABLE HANDLE

This ergonomic handle features a click-and-lock mechanism that allows for secure attachment and quick release from compatible cookware. With a simple press of the central release button, the handle detaches easily, transforming your pans and pots into oven-ready or stackable items. The sturdy grip, soft-touch finish, and integrated hanging loop make it both comfortable to use and convenient to store. The stainless-steel connector ensures reliable stability during cooking while maintaining a sleek, modern look.

OVEN-SAFE VERSATILITY

The cookware set is oven safe, giving you the flexibility to start dishes on the stovetop and finish them in the oven. Perfect for baking, roasting, or keeping meals warm, it's built to handle high temperatures with ease. Be sure to remove the detachable handle before placing in the oven.

EASY TO CLEAN

The stackable cookware set is designed with convenience in mind — all components are easy to clean and dishwasher safe, making cleanup simple after every use. The only exception is the detachable handle, which should be washed by hand to preserve its locking mechanism and soft-touch finish.

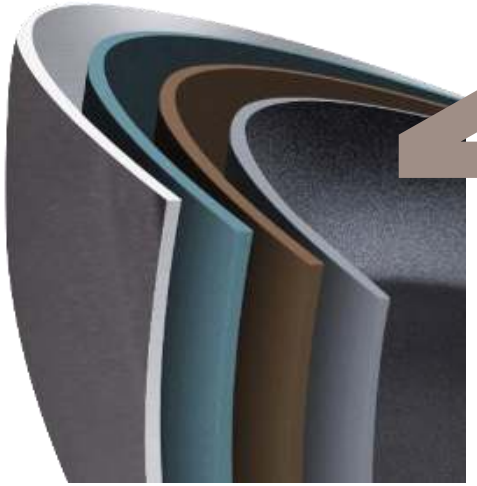

DIE-CAST ALUMINIUM

4 LAYERS NON-STICK COATING

- BASE FOR ULTRA-HIGH RESISTANCE AND DURABILITY
- ANTI-ABRASION LAYER FOR DURABILITY
- FINISH LAYER FOR NON-STICK PERFORMANCE
- NON-STICK SURFACE

Die-cast aluminum is the ideal material for cookware, thanks to its excellent thermal conductivity and durability. The unique production process gives cast aluminum cookware thicker walls and bottoms compared to forged and stamped aluminum options. This allows it to heat evenly and distribute heat consistently, enhancing both the quality and flavor of your dishes. Additionally, die-cast aluminum cookware is resistant to deformation, making it more robust and heavier than other types of aluminum cookware. Die-cast aluminum offers several advantages, including high resistance to corrosion and exceptional durability. Cookware made from this material is scratch-resistant and maintains its beautiful appearance over time. With a special non-stick coating, cooking becomes easier and healthier, allowing you to use less oil while preserving the natural flavors of your ingredients.

Die-cast aluminum cookware is effortless to maintain. It's easy to clean and dishwasher-safe, saving you time and making your cooking experience more enjoyable. Its durable construction means it can withstand everyday use without showing signs of wear, ensuring it stays looking great for years to come.

ASCELLA Collection

Frypans & casseroles

We all want to do our part to help the environment, and it is amazing how much cookware ends up in landfill; therefore, we have made sure that this stylish Ascella collection which consists of casserole pans, frypans, saucepans and shallow pots is eco-friendly. This is owing to its being manufactured from recycled die-cast aluminium. Ergonomic handles with removable silicone pads are provided along with internal non-stick coating Pfluon Cookmark which is PTFE free.

The bottom of the pan is reinforced with an anti-deformation disk. The range is suitable for induction stoves but is also suitable for all types of cookers.

- **UNIQUE 3D EXTERIOR DESIGN**

Ascella Collection

INTERNAL NON-STICK COATING

The frying pans in the Ascella collection have an ultra-easy-to-clean Cookmark non-stick coating that keeps food from sticking or burning. This makes washing up a breeze and helps save you time.

EXTERNAL HEAT-RESISTANT COATING

The frying pan features a specially designed heat-resistant exterior coating that prevents carbon buildup, making it much easier to clean and maintain. This coating not only simplifies care but also helps the pan retain its original appearance for a long time, even with frequent use.

ERGONOMIC SOFT-TOUCH HANDLES

The Ascella collection offers pans with comfortable, soft-touch handles that stay cool during cooking. Each handle also includes a hanging loop, making it easy to store your pans on a hook for added convenience.

INDUCTION BOTTOM

Ascella frying pans are designed with a high-performance induction bottom, making them versatile for any cooking surface. Built to last, each pan is reinforced with a unique anti-deformation disc that keeps the base perfectly flat, even under high heat—ensuring optimal performance and durability every time you cook.

INTERNAL NON-STICK COATING

The Ascella collection's pots, ladles, and sauté pans feature a premium four-layer Pfluon Cookmark non-stick coating, ensuring food slides off effortlessly without sticking to the surface. Enjoy flawless cooking and easy cleanup every time!

EXTERNAL HEAT-RESISTANT COATING

The advanced heat-resistant exterior coating provides exceptional surface protection, preventing carbon buildup that can dull the look of your favorite cookware. Keep your pots and pans looking like new, cook after cook!

GLASS LID

The Ascella saucepans, casseroles, and sauté pans come with elegant glass lids, giving you a clear view of your cooking progress. Designed with a secure silicone rim to hold the lid firmly in place, each lid also features a steam vent to gently release pressure, ensuring perfect results every time.

ERGONOMIC SOFT-TOUCH HANDLES

All pots and sauté pans from the Ascella collection feature ergonomic handles with comfortable, removable silicone grips, allowing you to move your cookware effortlessly and safely. When it's time to use the oven, simply slide off the silicone covers—no hassle, no worries. Ascella makes every step of cooking a breeze!

INDUCTION BOTTOM

Ascella pans are designed to excel on all types of hobs—whether you're using induction, electric, gas, ceramic, or halogen.

CAPELLA Collection

Frypans & casseroles

Ideal for all culinary techniques, our Capella cookware comes with a unique 3D exterior design to help create the kind of cooking instruments that are eminently desirable. All elements of the range have been carefully designed to help you create the most creative and complex of dishes with ultimate ease, and all the while, to look good while you are doing it.
The stylish instruments will complement all kitchens with their looks and also feature a reinforced non-stick coating that requires little or no oil, which is perfect for those seeking healthy cooking and easy cleaning.

REINFORCED NON-STICK COATING

The Pfluon Cookmark non-stick coating on the interior of the pan ensures that food won't stick to the surface, making cleanup effortless and quick. This allows you to spend less time cleaning and more time enjoying moments with your family and friends.

EXTERNAL HEAT-RESISTANT COATING

The unique heat-resistant exterior coating of Ran pans protects the surface from soot buildup, preserving the pristine appearance of your cookware and ensuring it remains looking new for longer.

GLASS LID

The glass lid, featuring a wood-styled handle, is equipped with a steam vent and a special silicone rim. This rim protects the non-stick coating of the cookware from scratches and abrasion while also cushioning the lid in case of an accidental fall, helping to prevent breakage.

ERGONOMIC SOFT-TOUCH HANDLES

The Ran collection showcases ergonomic, wood-styled handles that are not only pleasing to the touch but also include a convenient hanging loop for easy storage and accessibility.

INDUCTION BOTTOM

Ran pans are a versatile solution for all types of cookers, including induction, electric, gas, ceramic, and halogen, making them a must-have for any kitchen.

SADR Collection

Frypans & casseroles

This stylish, eco-friendly collection of casseroles and frypans, made of recyclable aluminum, is the perfect addition to your modern kitchen. We wanted to create a range that fits well with newer models of kitchens, with their minimal sleek looks but also retains a strong nod to fashionable interior design.

All of the pans in the Mon collection come with a reinforced non-stick coating to prevent your food from sticking to the pan. They are PTFE-free, keeping you far away from any of those toxic 'forever chemicals.' Additionally, they come with ergonomic, soft-touch handles with wood-like inserts, making them both stylish and comfortable.

SADR Collection

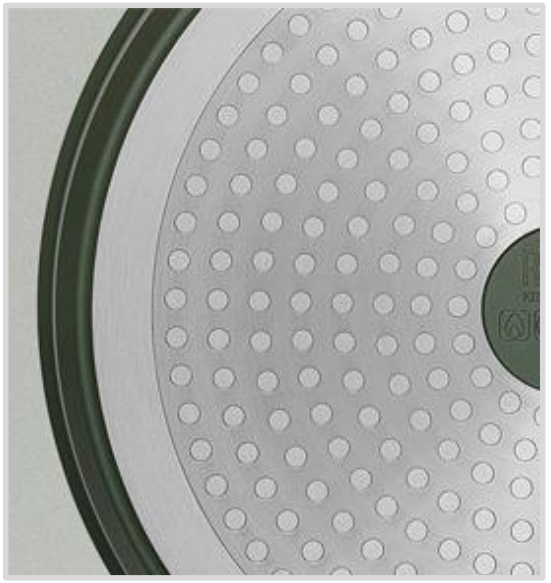

REINFORCED NON-STICK COATING

The internal Queenhome non-stick coating is a high-quality, water-based solution designed to meet all your expectations. It prevents food from sticking to the bottom or sides of the pan while offering superior resistance to corrosion and abrasion.

EXTERNAL HEAT-RESISTANT COATING

In this collection, we've ensured the pans are layered with an external heat-resistant coating. This coating regulates exterior temperatures, preventing dark markings and keeping your kitchen looking neat and tidy.

ERGONOMIC WOODEN STYLIZED HANDLES

The ergonomically shaped, wood-styled handles in the Sadr range are designed to make cooking a pleasure rather than a chore. Each handle features a convenient hanging loop, allowing you to easily hang and store your pan, making it simple to grab and put away when tidying up the kitchen.

INDUCTION BOTTOM

The Sadr collection is designed for compatibility with induction cooktops, but these frypans also excel on gas, electric, vitroceramic, and halogen cooktops, making them incredibly versatile. No matter your kitchen setup, the Sadr range is a perfect fit. Additionally, each frypan features a reinforced bottom with an anti-deformation disk, ensuring a durable surface that maintains its shape over time.

SADR Collection

REINFORCED NON-STICK COATING

The interior Queenhome non-stick coating is a high-quality, water-based solution designed to exceed your expectations. It effectively prevents food from sticking to the bottom or sides of the pan and offers superior resistance to corrosion and abrasion.

EXTERNAL HEAT-RESISTANT COATING

In the Sadr range, we've equipped the casseroles with an external heat-resistant layer. This coating protects the surface from burning, preventing marks and burns that could detract from your overall cooking experience.

UNIQUE DESIGN OF THE GLASS LIDS

The unique tempered glass lids, featuring silicone rims and drainage holes, eliminate the need for a colander, while special silicone inserts protect your fingers during water drainage.

ERGONOMIC WOODEN STYLIZED HANDLES

Designed with ergonomically shaped handles, these Sadr pans guarantee a cool feel on the stovetop. The thoughtful design keeps the handles from overheating, allowing you to cook confidently without the worry of burning your fingers.

INDUCTION BOTTOM

The induction-ready bases of these casseroles make them suitable for all cooktops, ensuring compatibility with any kitchen setup. Whether you have an induction, gas, electric, radiant, or smooth cooktop, this collection is perfect for you. Additionally, an anti-deformation disk prolongs their lifespan, guaranteeing resistance to deformation from heating.

Featuring ergonomic folding handles, these casseroles are easy to store without taking up valuable space, while ensuring comfort during cooking. An internal measuring scale allows for precise ingredient measurements, essential for preparing complex dishes.

The reinforced capsule bottom, paired with a protective disc, prevents warping and guarantees even heat distribution, enabling you to save energy and cook more efficiently. Compatible with all types of cookers, including induction, the Anser collection offers a variety of sizes, ensuring you find the perfect pot for every culinary task.

Anser Collection

UNIQUE FOLDABLE HANDLES

The Anser collection features innovative folding handles, providing a practical solution for those looking to maximize kitchen space. These handles allow casseroles to be easily stacked, making storage effortless and efficient. Additionally, they remain cool to the touch, ensuring safety when carrying hot casseroles without the risk of burns.

MULTILAYER CAPSULE BOTTOM

The multi-layer capsule bottom of our cookware, reinforced with an anti-deformation disc, guarantees even heat distribution and exceptional heat retention, ensuring durability and maintaining its shape with regular use. With its induction base, this cookware is compatible with all types of cooktops, including induction, making it a versatile choice for any kitchen.

MEASURING SCALE

The inner surface of the pot features a convenient measuring scale, allowing you to quickly and accurately gauge the right amount of liquid while effortlessly monitoring its level.

HEAT-RESISTANT GLASS LID

Anser casseroles are equipped with a sleek flat glass lid featuring a unique adjustable knob that offers two positions, ensuring protection for your fingers from burns. Each lid is crafted from heat-resistant glass and includes a special steam vent for safe and efficient cooking.

GINAN Collection

6-Piece Cookware Set

The Ginan set offers a sleek and durable solution for everyday cooking. It includes a saucepan and two casseroles, each fitted with a tempered glass lid featuring steam vents for controlled cooking. Crafted from high-quality stainless steel with reinforced capsule bottoms, these pieces ensure even heat distribution and long-lasting performance. Ergonomic stainless-steel handles provide a secure grip, while universal cooktop compatibility including induction adds versatility. Fully dishwasher-safe and easy to maintain, Ginan combines style, functionality, and everyday practicality.

- **HEAT-RESISTANT GLASS LIDS**

Ginan Collection

HEAT-RESISTANT GLASS LIDS WITH STEAM VENT

Each lid in the Ginan collection is made of durable tempered glass and fitted with precision steam vents, allowing excess moisture to escape and preserving just the right amount of heat and flavor. Together with the sturdy stainless-steel rim, this design ensures cooking stays clean and efficient without sacrificing style.

MULTILAYER CAPSULE BOTTOM

The multi-layer capsule bottom in the Ginan collection ensures even heat distribution across the entire cooking surface, helping to prevent burning or uneven cooking. It also provides excellent stability on any stovetop, making every dish more consistent, efficient, and enjoyable to prepare.

CONVENIENT NON-HEATED HANDLES

Designed to stay cool during cooking, these ergonomic handles offer a safe, comfortable grip every time. Whether lifting, pouring, or transferring, they ensure full control without the need for extra protection — combining convenience with peace of mind in the kitchen.

EASY TO CLEAN

The Ginan collection is designed to make cooking and cleaning as convenient as possible. Thanks to its dishwasher-safe construction, there's no need for soaking or scrubbing after each meal. Just place the cookware in the dishwasher, and it's ready for the next use. The smooth stainless-steel surface resists residue buildup, making maintenance quick and hygienic.

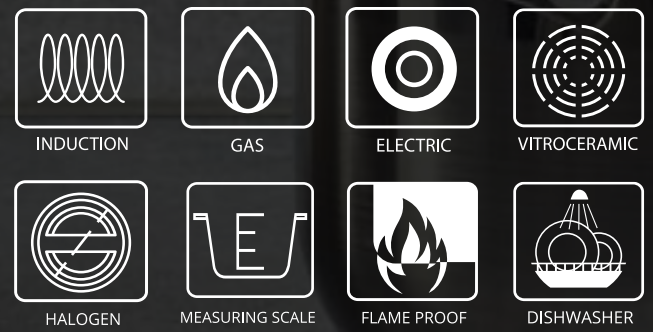

LIBRA Collection

Casseroles

Made of stainless steel 18/10, Libra series of stainless steel cookware is made with the ultimate in high-grade stainless-steel materials. Strong and robust, it is preventative against wear and tear as well as being corrosion-resistant. The body of the pans are made of the high-quality stainless steel sourced from the industry's leading manufacturers, providing an ultra-smooth surface that is resistant to staining, and so easy to clean. Compatible with all heat sources: induction, ceramic, halogen, electric, gas and dishwasher safe.

Libra Collection

EASY TO CLEAN

Created to be as easy to use as possible, this casserole can be washed both manually and in the dishwasher.

ENERGY-SAVING MULTILAYER CAPSULE BOTTOM

We have created this Libra range with a unique multilayer capsule construction on its bottom that will not only save you energy, but also ensure uniform heating of the entire casserole area, to give you the best dish possible. Even after turning off the cooker, it will retain heat for a long time.

FUNCTIONAL MEASURING SCALE

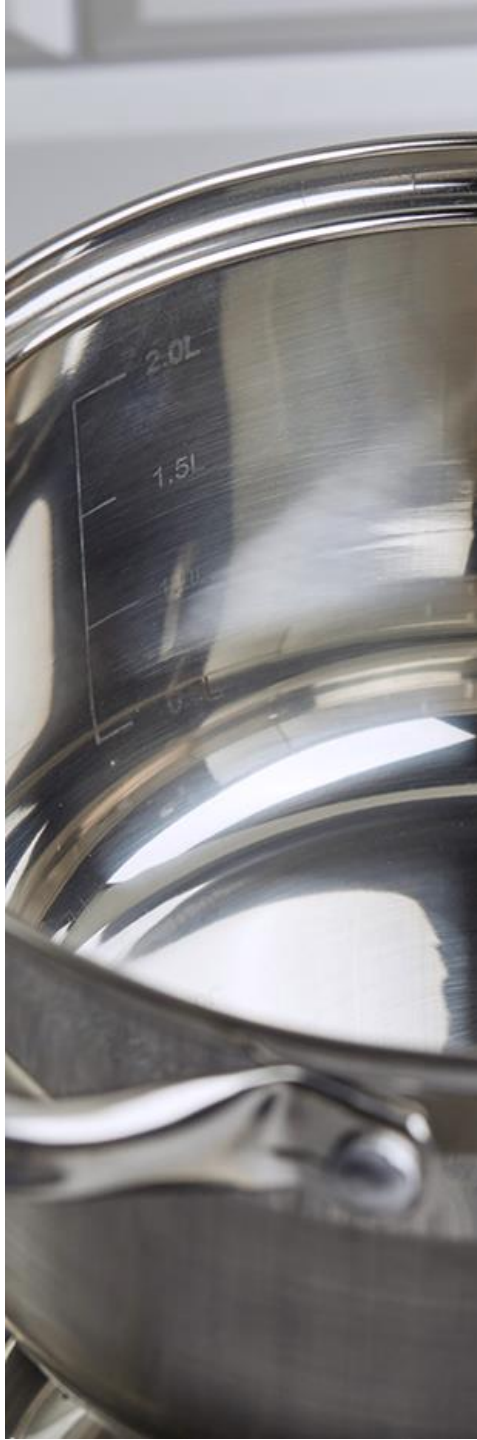

All good cooks know that timing and measurements are the key to success. To help you in this and prevent extra unnecessary washing up, we have provided you with a functional measuring scale, printed on the wall inside the pan.

HEAT-RESISTANT GLASS LID

This casserole provides you with a lid that has a slight concavity and so collects droplets of steam in the center to return them to the dish and so make your food even juicier and the taste even better. All covers are made of heat-resistant glass, keeping your hands away from danger, and have a hole for releasing steam to relieve the pressure when you need to.

CONVENIENT NON-HEATED HANDLES

This casserole comes with convenient non-heated handles that are ideal for grabbing and moving the pan from place to place during the preparation of your favorite dishes.

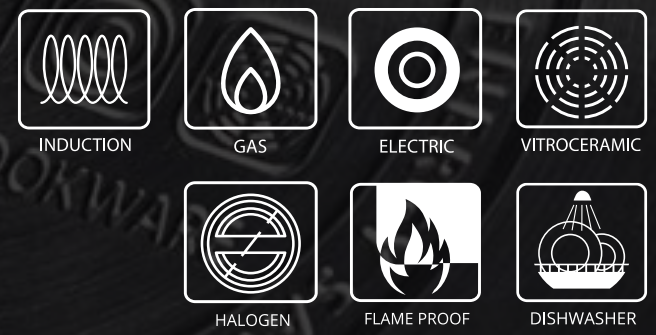

RIGEL Collection

Casseroles

Rigel collection is ideal for cooking for families and everyday home use. A capsule bottom promotes superior heat conductivity and even heat distribution, while stainless-steel construction ensures lasting durability. Each piece is fitted with riveted ergonomic handles for excellent balance and comfort.

Tempered glass lids are reinforced with stainless steel rims and handles for a secure fit while allowing you to monitor cooking progress without releasing moisture. Induction-ready bases are suitable for all cooktops. All this combines to create a supremely practical and effective instrument that will be sure to be your trusty companion for years into the future.

Rigel Collection

ENERGY-SAVING MULTILAYER CAPSULE BOTTOM

With Rigel casseroles, after turning off the cooker, they will retain heat for a long time, which allows you to continue cooking your favorite dishes, while at the same time saving on your gas or electric bill.

FUNCTIONAL MEASURING SCALE

When constructing this Rigel collection we have attempted to circumvent this particular problem by including a functional measuring scale in the pan so that you needn't be constantly measuring and pouring from other vessels.

HEAT-RESISTANT GLASS LID

We have made sure that the lid comes with a steam outlet that has a slight concavity and so collects droplets of steam in the center to return them to the dish and so make your food even juicier and the taste even better. All covers are made of heat-resistant glass.

CONVENIENT NON-HEATED HANDLES

These Rigel pans have handles that do not heat up and allow for the smooth moving of them from place to place.

EASY TO CLEAN

When designing this Rigel collection we wanted to create something that was going to save you time at the washing up after lunch and dinner. That is why we have made sure that these casseroles can be washed both by hands and in the dishwasher and are extra easy to clean.

WHISTLING KETTLES

There's no sound quite as charming as the whistle of a traditional kettle when it's boiled. It's a reminder you're just moments away from sipping a rewarding cup of tea or coffee. Resto's range of durable stainless steel kettles updates this old favourite, time-honoured, tea-making tradition into the modern kitchen. You can use it with any heat source, including induction. It looks just like the classic stovetop tea kettle you remember, but with a few modern additions.

Multi-layer capsule bottom
We all know that a necessary part of using any kettle is the waiting time for it to be boiled. All our kettles have a multi-layer capsule bottom, which allows them to retain stored heat for longer. This means you will have longer time in-between needing to reheat the water.

Easy opening
Because any kettle presents the obvious danger of moving quantities of hot water, these kettles have been constructed with an ergonomic soft-touch handle to aid handing and with a button for opening the spout of the kettle. This will mean that you will be reliably protected from burns and can easily pick it up or flip up the spout and finish your task safely.

Button for opening the spout of the kettle

ALMAAZ Collection

WHISTLING KETTLES

3.0L 2.7L

No two people are the same, and so we at Resto Kitchenware believe in giving you options. Not only this, but no two kitchens are the same, and they require filling with cookware that sometimes reflects very differing styles. That is why this Almaaz collection comes in a variety of forms and textures, to give you the option you need to marry the right teapot to your kitchen at home.

The Almaaz collection includes 5 specially designed whistling kettles that are bound to catch the eye of anyone entering your kitchen, no matter the layout and no matter the style.

SPECIAL HEAT-RESISTANT SURFACE COATING

Crafted to be a steadfast and reliable companion, this kettle collection features a unique heat-resistant surface coating, assuring its resilience against daily wear and tear. Its durability is guaranteed for long-lasting performance.

MULTI-LAYER CAPSULE BOTTOM

The thermal storage bottom ensures consistent heating and rapid boiling, allowing you to swiftly prepare your hot brew and proceed with your tasks. Additionally, to ensure these Almaaz kettles suit any kitchen layout, they are compatible with all types of cookers, thanks to their induction bottom.

EASY OPENING

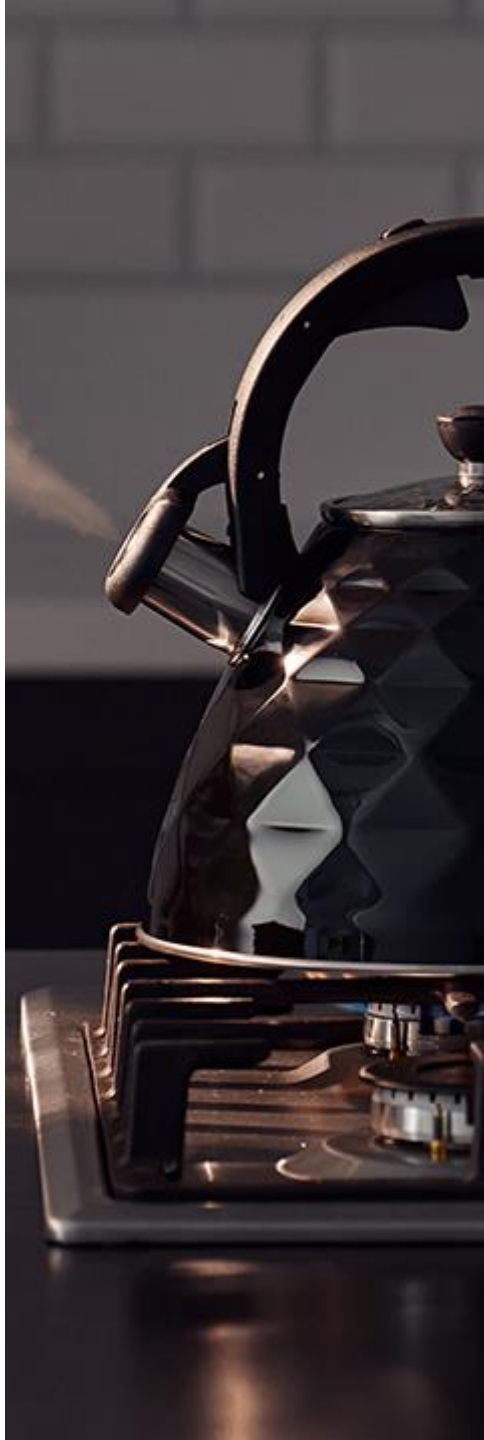

We prioritize your safety and a clean kitchen, achieved by introducing a valve easily opened with a button conveniently located on the handle. This ensures controlled pouring only when and where needed.

OPTIMUM CAPACITY

Guaranteeing convenience, the Almaaz collection is available in two volume options – 2.7 and 3.0 liters. This eliminates the need for repeated refilling and boiling, providing comprehensive coverage for your needs.

PERFECT GIFT FOR ANY OCCASION

Almaaz kettles are packaged in vibrant full-color gift boxes, making them an ideal present for your friend or loved one.

ARIES Collection

WHISTLING KETTLE

2.7L

The Aries collection includes this specially designed whistling kettle that is bound to catch the eye of anyone entering your kitchen. It's unique look will make it both stand out and also fit into any kitchen that has been created with either a modern or idiosyncratic feel in mind.

This is the most adaptable and functional kettle that can be found on the market. It can be used on all types of cooking surfaces including: electric, gas, glass-ceramic, and induction. This means that no matter what your requirements and appliances are at home, any of these Resto kettles will work for you.

Keid

TEAPOTS

The Atria teapot comes with a stainless steel infuser insert for holding and steeping loose tea.

We designed this teapot to be as easy to clean as possible so that it is always in sparkling condition for your next batch. It is completely collapsible and all its parts can be washed in the dishwasher or by hand.

When it's time to pour yourself a cup of tea, having the right tools makes all the difference between a tasty treat and a bitter brew. Ask any tea lover and they'll tell you that having the right teapot transforms brewing tea from a chore into a true art form.

Unlock the flavor of your favorite tea with our teapots from the Ain, Atria and Keid collections. Gracefully shaped, they are manufactured of clear borosilicate glass, so you can watch the steeping process in action and know exactly when your tea is ready. With its beautiful curved lines and transparent construction, it will blend in with just about any space.

Enjoy cup after flavorful cup thanks to a large stainless steel infuser that provides ample room for loose tea to fully infuse.

Available in 350ml, 650ml, 950ml, 1200ml or 1600ml sizes, Ain, Atria and Keid teapots come with their own full-color gift box to help protect them on their journey to you and to provide you with all the information you need making them a perfect gift for any tea lover.

AIN Collection

TEAPOTS

We at Resto Kitchenware are incredibly proud of this stunning Ain collection of teapots, that combine a beautifully crafted style with ultra efficient technology to produce a close companion for your kitchen that you will long to return to time and time again. The different outer texture made with see-through heat-resistant borosilicate glass, will enable you to check your brew while also preventing any needless heat, or burns as you pick up the teapot.
The stainless steel filter will ensure that you only get what you need in your cup, and an ergonomic stay-cool handle will mean that no matter how hot your tea is, you can move the pot around with ease.

BOROSILICATE HEAT-RESISTANT GLASS FLASK

The heat-resistant nature of borosilicate makes it the perfect material for a glass flask teapot. Borosilicate glass will enable you to easily view the progress of your brew while also ensuring that the heat is kept where it needs to be—inside the pot and not outside of it.

STAINLESS STEEL INFUSER

The Ain range of teapots is equipped with a stainless steel infuser featuring a specially designed handle for effortless removal and insertion. This ensures the safety of your fingers when handling the tea. You can utilize the finest quality tea leaves by placing them directly into the infuser. This food-grade stainless steel basket features tiny holes, allowing you to brew your loose tea with ease.

DRIPLESS POURING SPOUT DESIGN

The dripless pouring spout design of these Ain teapots is something that lovers of tidy kitchens will thank us for. It is specially designed to avoid any spillages at all, keeping your table clean and tidy.

EASY TO CLEAN

Another advantage of these glass Ain teapots is that they are extremely easy to clean. We've ensured that each teapot can be easily disassembled for quick and efficient cleaning. After drying or wiping the components down, simply reassemble them with ease, place the kettle back on, and prepare for another batch of your favorite blend.

ATRIA Collection

BOROSILICATE HEAT-RESISTANT GLASS FLASK

This borosilicate heat-resistant glass flask will mean that your pot lasts from your first cup to the last in pot.

EXTRALONG STAINLESS STEEL INFUSER

The real genius of this pot lies in its infuser design. This means that you can use the highest quality tea leaves and simply place them into the infuser without the use of a tea strainer or any extra apparatus and brew your loose tea in this large, deep, food-grade stainless steel basket with tiny holes.

DRIPLESS POURING SPOUT DESIGN

This teapot comes with its own dripless pouring spout design which will ensure there are no harmful drips left at the end of your pour causing a mess about the place. So pour away with confidence and enjoy a deserved cup of tea!

THOUGHT-OUT DESIGN

Every detail has been thought about to ensure that the tea and coffee you make each day is made to the very highest of standards, and the atmosphere created by the utensils you use to brew them is one of peace and serenity.

EASY TO CLEAN

We have made sure that this pot is easily disassembled so that you can quickly take it apart and get down to washing what needs to be washed. After you have laid them out to dry or given them a good towel down, simply put them back together again with supreme ease, put the kettle back on, and get ready for another batch of your favorite blend.

BOROSILICATE HEAT-RESISTANT GLASS FLASK

The Keid French press, crafted from durable heat-resistant borosilicate glass, is designed to keep your favorite beverage hot for extended periods, ensuring you enjoy every sip at the perfect temperature.

STAINLESS STEEL FILTER

The stainless steel mesh filter is both reliable and durable, expertly filtering out even the finest coffee grounds and tea particles to deliver a perfectly clean beverage every time.

PLASTIC LID WITH A SPECIAL BUILT-IN FILTER

The French press lid features an integrated filter for enhanced filtration, clearly marked with an icon of three wavy lines. This design ensures optimal brewing, providing you with an even cleaner, more refined beverage.

THOUGHT-OUT DESIGN

The Keid French press boasts a distinctive ribbed design that adds an elegant and stylish touch to your kitchen. Its robust plastic body not only enhances its aesthetic appeal but also protects the borosilicate glass flask inside, ensuring it withstands accidental bumps without shattering.

EASY TO CLEAN

Our thoughtfully designed French press allows for easy disassembly and cleaning, whether by hand or in the dishwasher. After washing, simply dry the components and reassemble for hassle-free use. Enjoy a seamless brewing experience from start to finish.

BAKEWARE | COLLECTIONS

BAKEWARE

OVEN-TO-TABLE STONEWARE

Stoneware ceramic has been the cornerstone of cookware materials for centuries. Stoneware is a tried and trusted ceramic that is extremely durable and a versatile choice for convenient one-step, oven-to-table home cooking.

With our Fornax range, we wanted to create the perfect bakeware that could work in any room. It was especially important to us that it looked at home in both the kitchen and also at your dining table. The modern and stylish designs of our dishes mean that you can use them as a serving dish straight after removing from the oven. From lasagne to pies, roasted vegetables to hot crumble, use our beautiful Fornax range to cook all of your family's favourite meals.

CARBON STEEL

Along with ceramics, carbon steel is also a perfect solution when choosing bakeware. It is lightweight, non-stick and has an amazing temperature response and exceptional heat distribution qualities ensuring a perfect bake every time! The textured base of the Norma range gives an additional non-stick performance, allowing air to circulate under your bake, giving a crisp and even cooking result.

FORNAX Collection

BAKEWARE

High-fired stoneware ceramic is exceptionally strong and ensures rapid and even heating. It is configured to handle a wide range of cuisines and culinary techniques.
Safe for oven, broiler, freezer and microwave, non-stick and easy to clean, it is also scratch, chip and stain-resistant.

Fornax Collection

CREATED FOR YOUR CULINARY EXPERIMENTS

The Fornax bakeware range has been designed with creating the optimal traditional bakeware collection. It is all about classic designs and shapes made from materials that are built to last and built to do the job for long into the future.

DURABLE AND VERSATILE

This Fornax dish is an extremely durable and versatile choice for one-dish baking, serving and storing. It is configured to handle a wide range of cuisines and culinary techniques. The high-fired stoneware that the dish is made from is exceptionally strong and ensures even heating. Safe for oven, broiler, freezer and microwave, easy to clean, resistant to chips, scratches and stains

EASY-HOLD HANDLES

We have provided this Fornax dish with easy-hold handles for a comfortable grip and secure transfer into and out of the oven and under the broiler.

HEALTHY COOKING

The reason why ceramics have been used in cooking for so long is the fact that the material prevents any contamination and sticking of the food.

EASY TO CLEAN

The fired ceramics of this Fornax bakeware are reinforced with a glazed coating, which makes them easy to wash. This means that you will be spending less time at the sink and be enjoying more time spent with friends and family.

KITCHEN ACCESSORIES

Knives | Knife sharpener | Multifunctional scissors | Cutting boards | Graters | Kitchen utensils

With the proper kitchen utensils, success in the kitchen is assured. The Subra collection is the perfect choice. And we all know that the most important tool in a cook's arsenal is a sharp chef's knife – whether you are a home chef or a pro. We have made sure that knives and scissors from our different collections will provide you with the optimal experience when it comes to cutting your food. They will always stay sharp with our stylish Atlas knife sharpeners featuring two levels of sharpening knives (metal plate for coarse processing / white ceramic rods for fine finishing). We offer you the best possible option for your knives with our Sham collection of cutting boards that have a specially designed antibacterial surface that acts gently on the blade of the knife. Finally, when it comes to grating or slicing cheese and vegetables, the Sham graters are the perfect choice for this task.

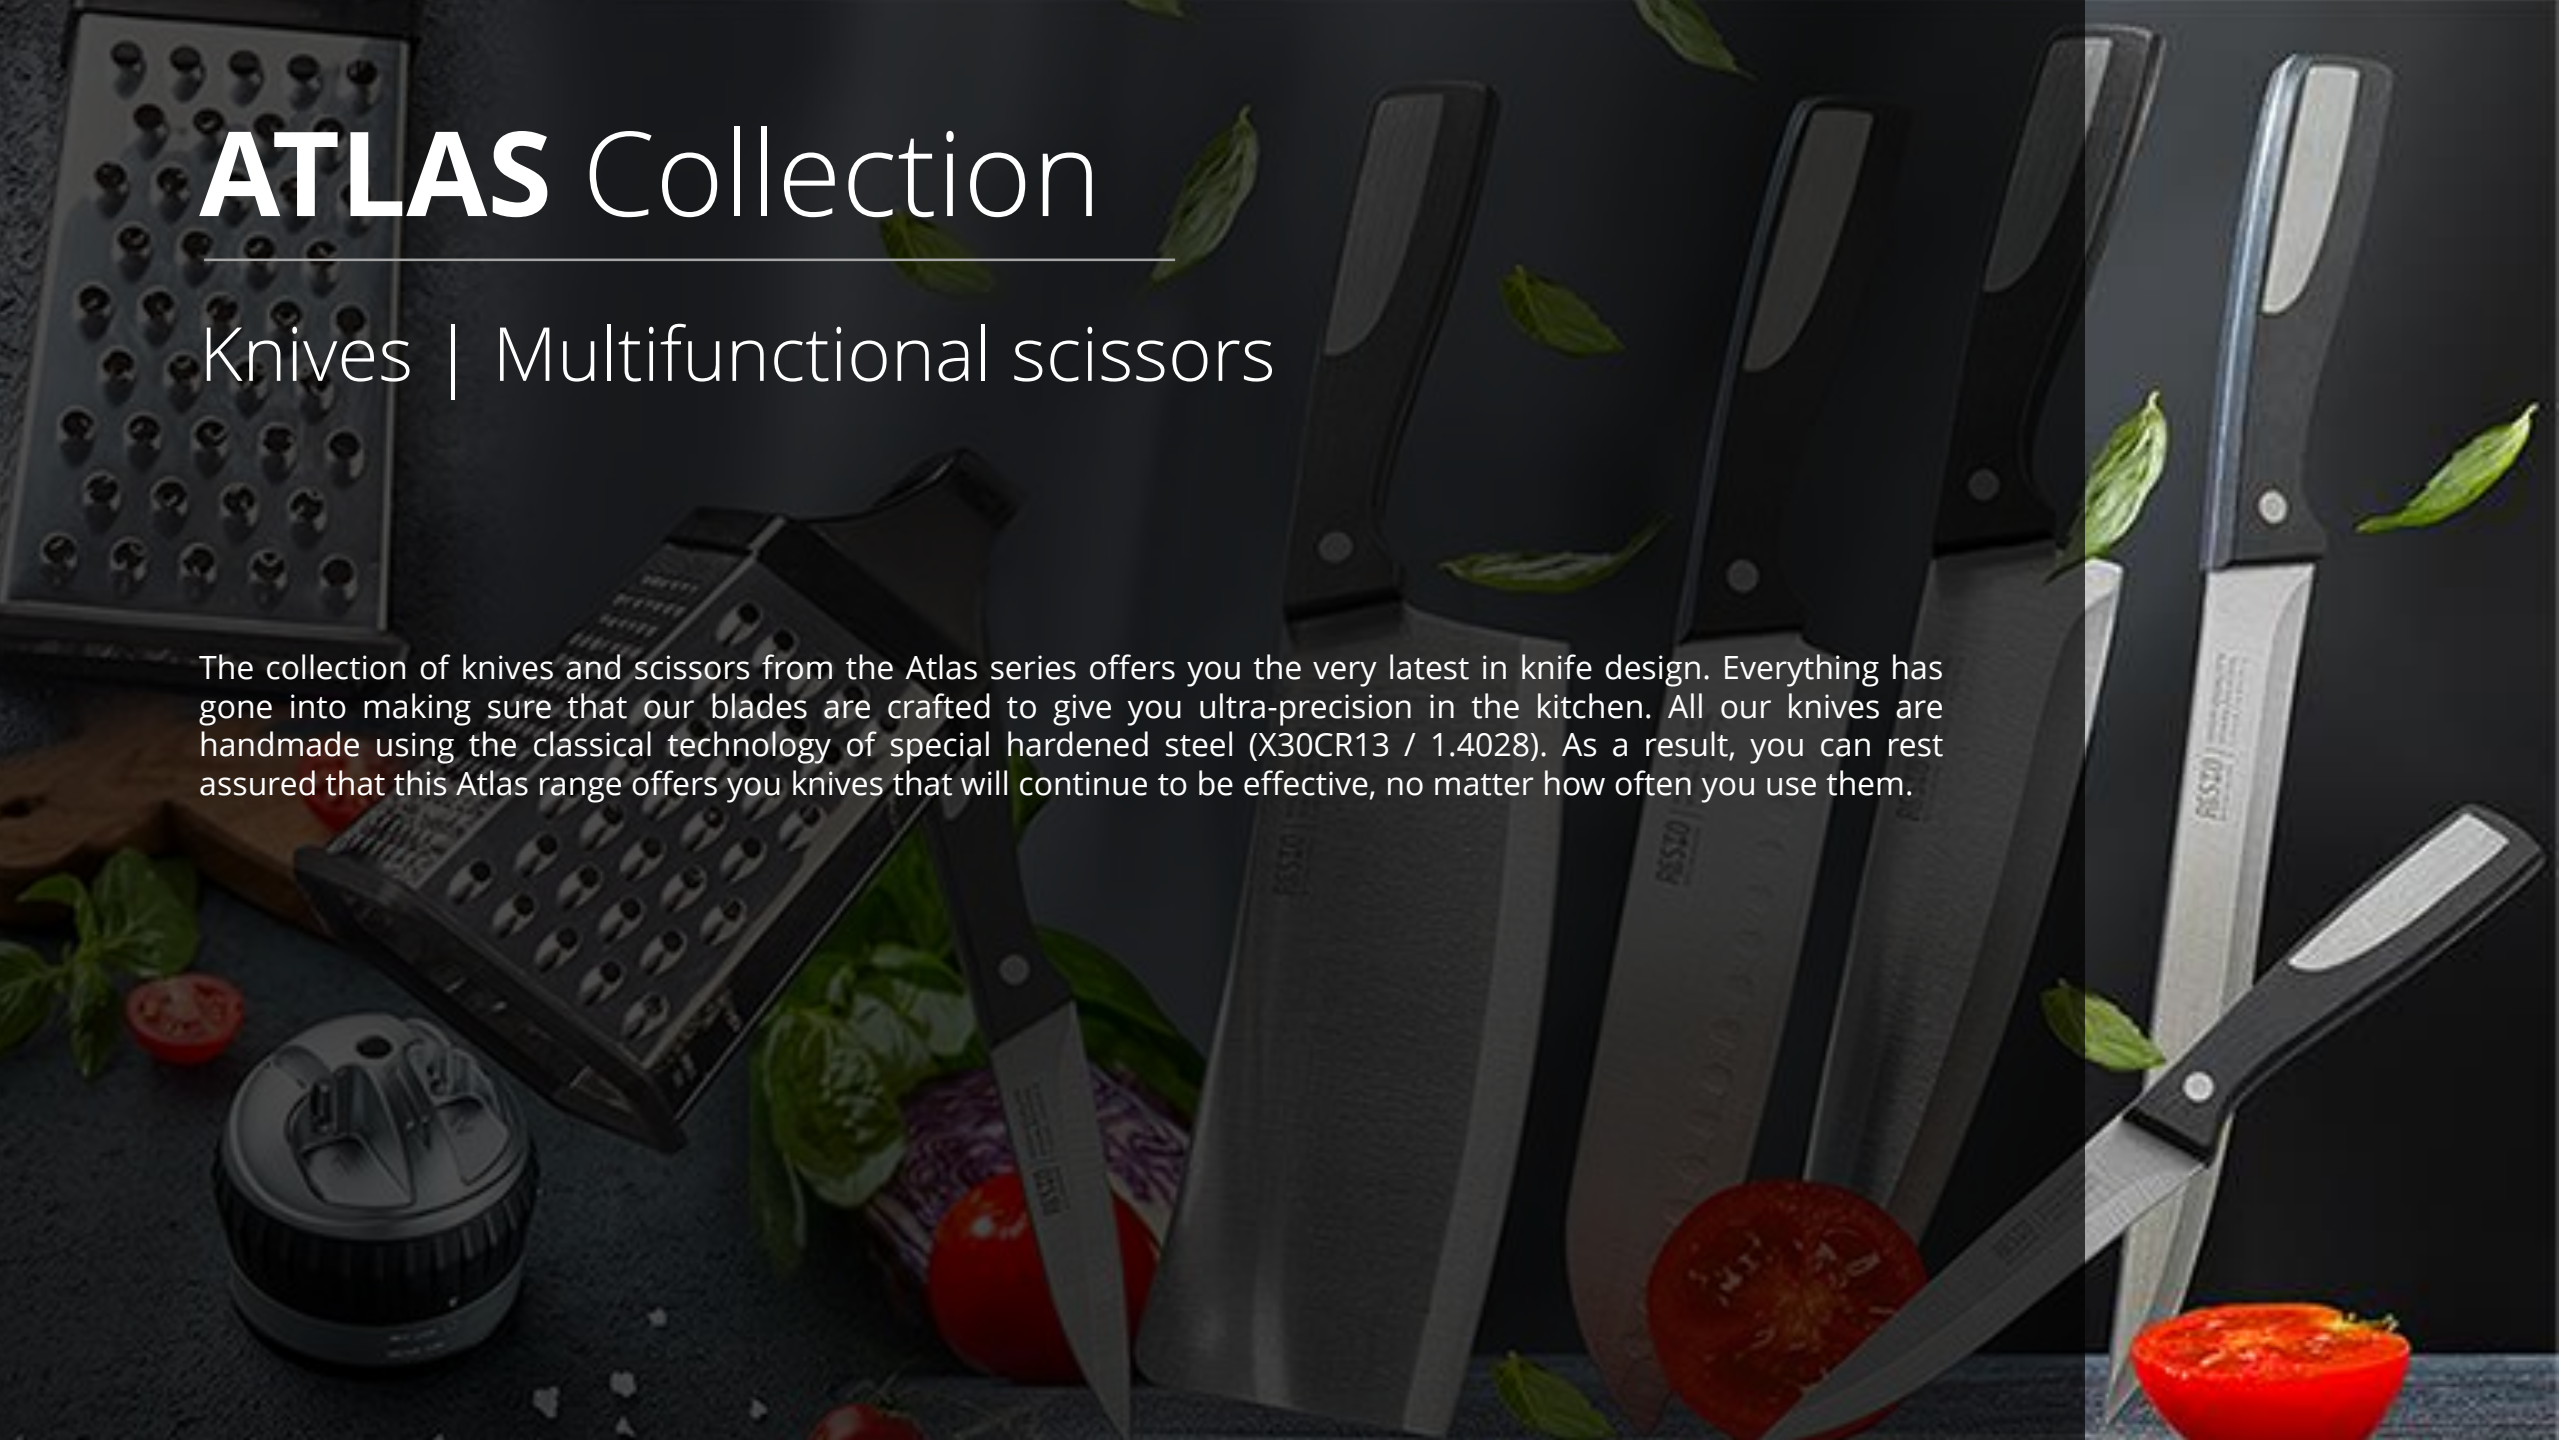

Collections **Atlas Carina Eridanus Merope Ogma Sham Subra**

ATLAS Collection

Knives | Multifunctional scissors

The collection of knives and scissors from the Atlas series offers you the very latest in knife design. Everything has gone into making sure that our blades are crafted to give you ultra-precision in the kitchen. All our knives are handmade using the classical technology of special hardened steel (X30CR13 / 1.4028). As a result, you can rest assured that this Atlas range offers you knives that will continue to be effective, no matter how often you use them.

UTENSILS FOR YOUR CULINARY TRIUMPHS

Stainless steel blade and plastic handle with stainless steel insert. Made from the strongest 18/10 stainless steel. Impeccable one-piece construction for durability and robustness. Atlas knives come with chic black handles with a matte metal insert to make sure that they look great in any kitchen, no matter the style.

SPECIAL SHARPENING

All our knives are handmade using specially hardened steel (X30CR13/1.4028) and the blade also goes through additional sharpening during production which helps to retain the sharpness for an extended period.

ERGONOMIC HANDLE

It is so important that you maintain the upmost safety standards when using kitchen knives. This means that your grip is one that always keeps your fingers free from danger at all times. To aid you in your safety measures the ergonomic handles of this collection have been specially crafted and shaped to give you the safest cooking experience possible.

EASY TO CLEAN

To maximize your safety levels in the kitchen you want to be able to quickly clean your knife and put it away in a holder after using. The danger of leaving a knife in the sink or lying around the kitchen are all too easy to see. Because of this we wanted to make sure that this Atlas collection is easy to clean so that the moment you don't need it, the knife can be tucked away safely.

INDISPENSABLE TOOL

These days most families have taken to using scissors in the kitchen daily. They provide an easy way to complete a plethora of tasks that would take a little longer with a knife or another implement that you'd rather not keep in the kitchen if at all possible. That is why we have included the most adaptable scissor on the market as a part of our Atlas collection.

INCREDIBLY VERSATILE

Manufactured using high-quality stainless steel and durable plastic, multifunctional 9-in-1 Atlas scissors are incredibly versatile and will help you in a huge variety of ways.

HIGH-QUALITY STAINLESS STEEL

These scissors feature stainless steel blades, made of special hardened steel (X30CR13/1.4028), that are rust resistant and durable. Sharp enough to tackle meat, vegetables, and even small bones!

DETACHABLE BLADES

Detachable blades of these multifunctional kitchen scissors come apart for easier cleaning and sharpening. They allow you to cut vegetables, peel fruits or scale fish with the serrated edge.

9 – IN – 1

Fish scale remover – Household scissors – Bottle opener – Nut cracker – Screwdriver – Knife – Vegetable peeler – Bone cutter – Can opener

CARINA Collection

Knives

A knife is fundamentally a practical tool. It is perhaps one of our earliest and most important tools as humans and is the instrument that all survival instructors say is probably the most important thing you can always have with you. It is important, therefore, the way in which you go about constructing one and so that is why we at Resto have taken extra special care to help produce the optimal knife for the optimal cooking experience. The added bonus is that not only are these knives extremely effective but they also look the part as well and will be a welcome addition to any kitchen, no matter the interior design or layout.

Carina Collection

PERFECT GIFT

What we have done then with this Carina knife set is to go about creating a stunning matching set that will be able to satisfy all of your needs. They are compact and stunningly designed and will be sure to fit into any kitchen space no matter the design. The 4 piece set comes in a magnetic box keeping them neat and ready for immediate use.

ERGONOMIC HANDLE

When designing this set of knives we not only wanted to make sure they looked the part and looked at home in any kitchen - something we have achieved with a gorgeous wood effect - but we also wanted to make sure that they would be easy to use time in time out over a long period. That is why we have been sure to include in their design, ergonomic soft-touch handles which your hands will end up thanking you for after going through a pile of carrots.

SPECIAL SHARPENING

We at Resto have made sure that all Carina knives are made using specially hardened stainless steel 3CR13 and the blade also goes through additional sharpening during production which helps to retain the sharpness for an extended period.

ANTIBACTERIAL SURFACE

These days we all perhaps more than ever know the danger of a build-up of bacteria and what that can end up doing. In order to help us achieve this, we have made sure that these Carina knives come with an antibacterial surface so that anything that is unwanted on them is dealt with as quickly as possible.

ERIDANUS Collection

Knives

This Eridanus knife set is the ideal addition to any kitchen to help prepare that perfect meal. Designed with Laser Damascus Decal to enhance both the practical and aesthetic qualities of the knife, along with a specially hardened steel to ensure that they provide you with the longevity you need to last you long into the future, as well as a handle that is made with black marble stone texture on the full tang bolster, these knives are an absolute must.

They are the kinds of items that become like old friends that you can trust on no matter what the challenges you have before you, to support you in your times of need!

OUTSTANDING DESIGN

The unique Laser Damascus Decal and specially designed handle with black marble stone are exactly the kinds of descriptors of a knife that you didn't realize you needed until you started using them in your life.

ERGONOMIC MARBLE STONE HANDLE

A beautiful ergonomic handle is made with black marble stone texture to give the knife a weighty feel, and it has a full tang bolster which will serve to protect your fingers at all times while giving you the added comfort you need so that it is always a pleasure and never a chore to start at the chopping board.

SPECIAL SHARPENING

All our knives are handmade using specially hardened steel (5CR15MOV) and the blade also goes through additional sharpening during production, which helps to retain the sharpness for an extended period. With this Eridanus collection, you can be sure that you will be able to slice away with ease and control the knife with the precision you need to create the dishes you care so much about.

ANTIBACTERIAL SURFACE

As we have learnt more about hygiene over the years, it has become increasingly apparent that we should all take extra care in the kitchen to ensure that all our instruments which we use for cooking are kept as clean as possible. Knives, given how often they are used, and given the kinds of things we use them to chop, are some of the most vital items to keep clean. That is why we have introduced an antibacterial surface to these Eridanus knives.

MEROPE Collection

Knives

The Merope Collection features high-performance knives and knife sets made from durable stainless steel 1.4028 (X30Cr13) for lasting sharpness and corrosion resistance. With an antibacterial surface, these knives support cleaner, safer food prep every day. Their ergonomic handles offer a secure, comfortable grip, while the smooth design makes each knife easy to clean and maintain. Sleek, practical, and built for precision, Merope brings sharp performance and modern hygiene into your kitchen.

PREMIUM STAINLESS STEEL FOR LASTING PERFORMANCE

The blades in the Merope collection are made from high-performance stainless steel 1.4028, trusted for its strength, edge retention, and corrosion resistance. It's the ideal material for knives that stay sharp, stay clean, and perform beautifully day after day — whether you're prepping quick meals or mastering fine cuts.

ERGONOMIC HANDLE

Each Merope knife features an ergonomically designed handle that fits naturally in your hand, offering a secure and confident grip with every cut. Smooth, balanced, and comfortable to hold, these handles make even longer prep work feel effortless, bringing precision and ease to every kitchen task.

EASY TO CLEAN

Merope knives are designed not only to perform beautifully, but to make cleanup effortless. With their smooth, hygienic surfaces, they resist buildup and wipe clean with ease — so you can spend less time at the sink and more time enjoying what you've prepared. Simply rinse, dry, and they're ready for your next task.

ANTIBACTERIAL SURFACE

Hygiene meets innovation with the Merope collection's antibacterial surface. Specially treated to help reduce bacterial buildup, it keeps your kitchen safer and your prep space cleaner — without extra effort. It's one more reason Merope makes every slice smarter and more reliable.

OGMA Collection

Knives

This Ogma knife set includes all the essentials needed for the preparation of food for both advanced and basic dishes alike. The knives feature high-carbon stainless steel blades decorated with a special laser printing waved pattern that leads to an increase in strength and durability. This means that not only can you depend on the Ogma collection to last the test of time, no matter what your dishes of choice are, but that they will also seamlessly complement any kitchen.

Needless to say, the design also provides you with knives that have a razor-sharp edge, that enables effortless cutting, for an easy cooking experience where the stress is taken out of the kitchen, and you are left in a relaxed state of mind to concentrate on what you do best, creating wonderful meals for the people you love.

OUTSTANDING DESIGN

Created out of hardened steel decorated with a unique Laser Damascus Decal and specially designed with a wooden handle with decorative fixing elements, the level of detail that has gone into the construction of these knives is truly extraordinary. As a result, no matter the layout or look of your kitchen, you can rest assured that not only these knives will both fit in perfectly but also enhance the image of the room.

ERGONOMIC WOODEN HANDLE

This Ogma collection comes with wooden handles, that give you that comforting timeless feel, but they nonetheless are ergonomically designed by being perfectly shaped to assist your handling of them and to ensure that you can grip them with ultimate ease, putting you in full control of whatever lies ahead of you.

SPECIAL SHARPENING

All our knives are handmade using specially hardened steel (5CR15MOV) and the blade also goes through additional sharpening during production, which helps to retain the sharpness for an extended period. This means that you have the requisite level of sharpness to fulfil whatever task it is that you need doing, with whatever kind of food it is that you need to chop, with the highest level of precision and ease.

ANTIBACTERIAL SURFACE

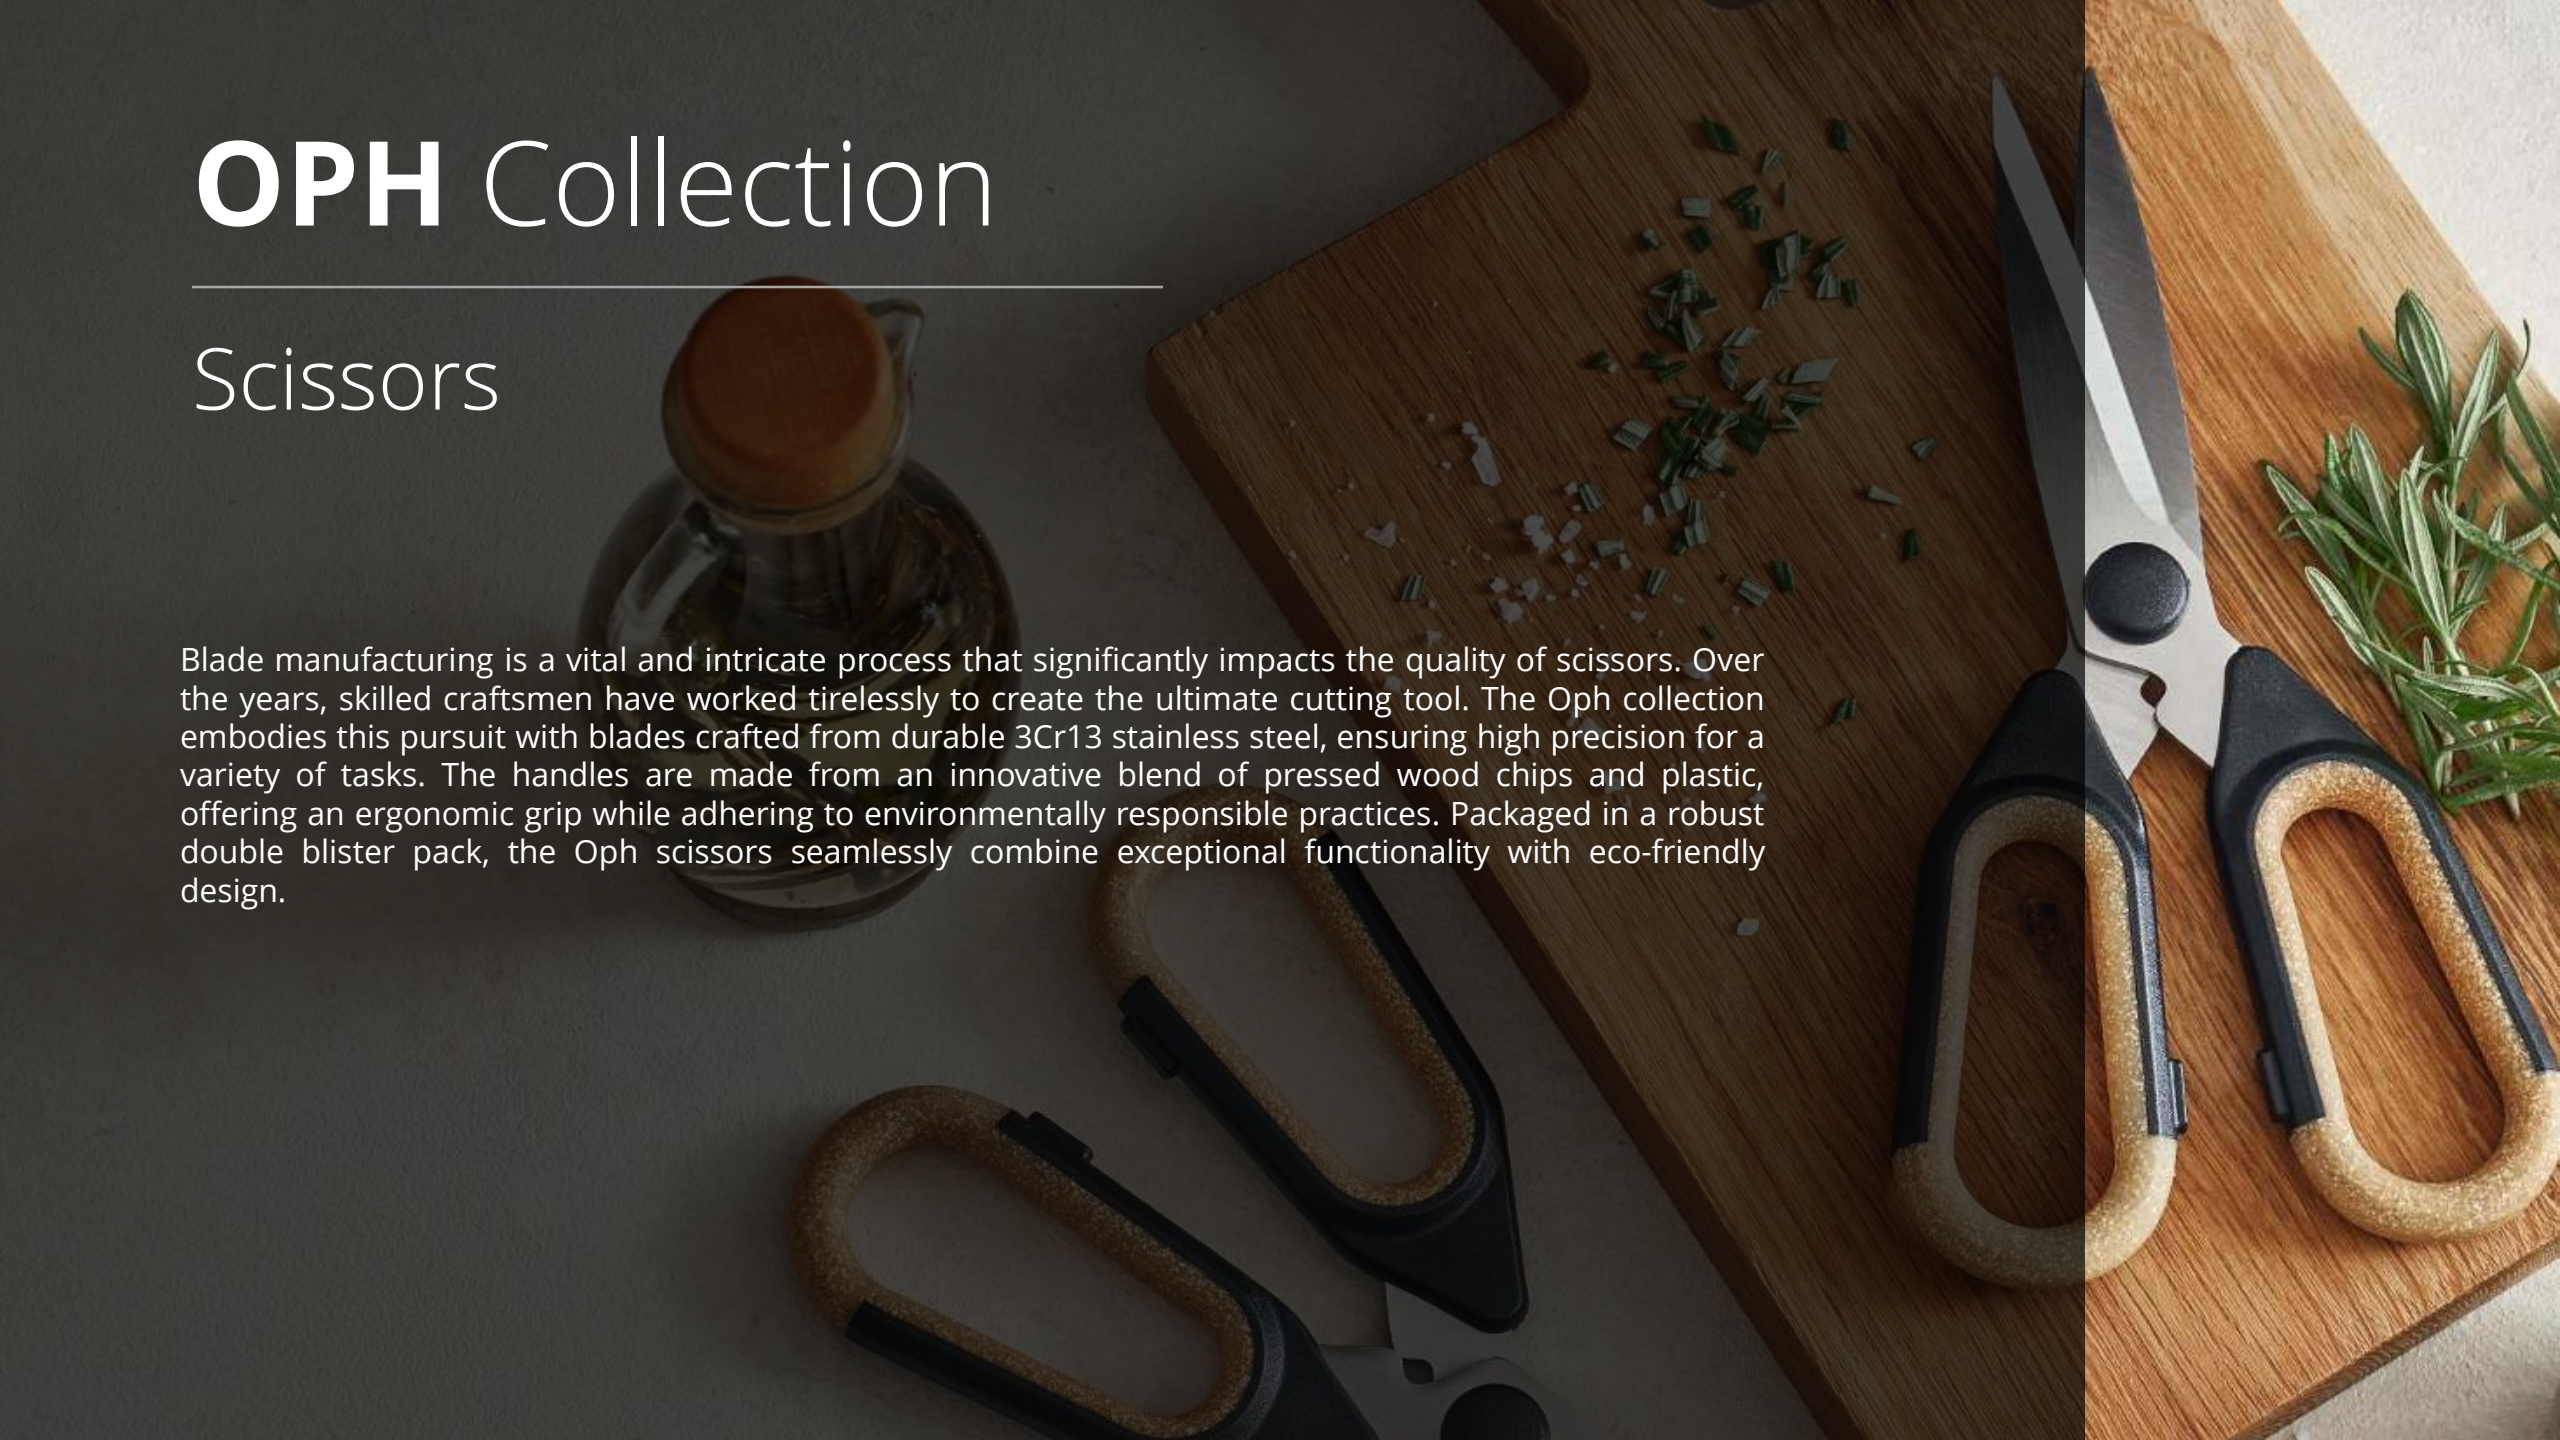

The antibacterial surface of this Ogma knife offers you the confidence you need that you are keeping your kitchen in the highest standards of hygiene.

OPH Collection

Scissors

Blade manufacturing is a vital and intricate process that significantly impacts the quality of scissors. Over the years, skilled craftsmen have worked tirelessly to create the ultimate cutting tool. The Oph collection embodies this pursuit with blades crafted from durable 3Cr13 stainless steel, ensuring high precision for a variety of tasks. The handles are made from an innovative blend of pressed wood chips and plastic, offering an ergonomic grip while adhering to environmentally responsible practices. Packaged in a robust double blister pack, the Oph scissors seamlessly combine exceptional functionality with eco-friendly design.

Oph 95326
23cm Length

INDISPENSABLE KITCHEN ACCESSORY

Kitchen scissors are an essential and versatile tool that belongs in every kitchen. Designed for ease of use, they simplify a wide range of tasks that would take significantly longer with a knife or other utensils. That's why we proudly offer the finest kitchen shears available on the market today, elevating your culinary experience with efficiency and convenience.

HIGH-QUALITY STAINLESS STEEL

The knife blade is expertly crafted from 3Cr13 stainless steel, renowned for its exceptional corrosion resistance and ability to endure repeated stress cycles. This carefully engineered alloy, composed of carbon, chromium, and nickel, not only provides remarkable strength but also effectively prevents warping and rusting over time. Designed for longevity and convenience, this blade can be easily sharpened when needed, ensuring it maintains its cutting performance. With its durability and reliability, this knife is an essential addition to your kitchen arsenal, making meal preparation smoother and more enjoyable.

ERGONOMICALLY DESIGNED ECO-FRIENDLY HANDLES

One of the standout features of the Oph collection scissors is their ergonomic handle, crafted from a blend of recycled wood fibers and plastic. This innovative design not only feels pleasant to the touch but also ensures comfortable, long-lasting use. We prioritize sustainability in our production process, making our scissors an eco-friendly choice. This commitment not only enhances the product's appeal but also empowers consumers to play an active role in environmental preservation with every use.

SHAM Collection

Cutting boards | Graters

Specially designed for everyday use, high-quality cutting boards from the SHAM collection are an essential element in your kitchen. They have a perfectly suitable surface that gently acts on the blade of the knife when slicing and shredding. The modern design of our boards and their durability are combined with an absolutely practical material - high-quality plastic, which prevents the accumulation and reproduction of microbes.

When it comes to grating or slicing cheese and vegetables, our SHAM graters are the perfect choice for this task. Each side has a different size grating surface which grates evenly and effortlessly across its entire perforated surface.

Sham Collection

MODERN DESIGN

No item should be solely functional and forget the power of beauty in our lives. With this in mind, our boards not only reflect the cutting edge of modern design in terms of the technology implemented to ensure their durability but also, with their stunning hexagonal pattern, will create a fresh and modern feel in your kitchen.

THE BEST OPTION FOR YOUR KNIVES

Because, like our very own Atlas collection, many modern knives require special cutting boards, we had to be certain that the cutting board we designed was built to withstand enormous pressure. That is why we offer you the best possible option for your knives with our Sham collection. They have a specially designed surface that acts gently on the blade of the knife when slicing and shredding.

ANTIBACTERIAL SURFACE

The materials that have got into this Sham board have been chosen from the very best of sources. In the decision process, at absolutely all stages the practicality of the materials sourced has been paramount. This means the SHAM boards are created from the very highest-quality plastic and designed with an antibacterial surface to keep them clean and ready for use.

EASY TO CLEAN

These cutting boards are fully dishwasher safe so that you can simply give them a quick rinse, pop them in the machine and get back to spending time with the people you love.

Sham Collection

EFFECTIVE DESIGN

Made of durable 18/10 stainless steel and solidly constructed, with rigid sides and a base that won't easily slide out from under you, Sham grater will provide all the flakes, shreds, and shards you'll ever need.

COMFORTABLE GRIP HANDLE

Another issue with grating that we have all come across is the danger of slipping and cutting yourself. Easily done with often painful results that produce cuts that are tough to stem, they are eventualities best avoided. In order to help you do this, we have made sure you are offered a stable platform from which to grate so that even when grating small pieces you should feel in perfect control. The overall construction of this grater feels solid and great in hands thanks to its firm grip handle which will help create an enjoyable grating experience.

NON-SLIP SILICONE BASE

We have included a nonskid rubber base to provide leverage while grating, helps keep the grater in place while you work and preventing these kinds of accidents.

EASY TO CLEAN

During the design process of this grater we made sure that you will be sitting on that sofa as soon as possible, because this grater can be washed both by hands and in the dishwasher meaning that you have that extra choice and that extra efficiency, giving you that extra time.

SUBRA Collection

Kitchen tools

We at Resto Kitchenware have designed a range to fulfill all of your kitchen needs. The Subra collection of kitchen tools includes 6 items: a serving spoon, soup ladle, skimmer, turner, potato masher, and an egg whisk. Made of high-quality materials, they can be used on any non-stick coating — see our Mon range of pans — meaning that you can rely on this range time and time again.

The beech wood handle and matte gray plastic of the working surface perfectly match, creating a stylish and sleek look, meaning that no matter your kitchen design, this Subra range will be bound to look the part.

Subra Collection

BEECH WOOD HANDLE

We wanted to create a collection that not only functioned to the highest level but also had an element of aesthetic beauty. That is why all these kitchen utensils come with a beech wood handle, and not only does it add an element of stylish flair to this Subra range but also gives you that homely comforting feel to touch that only wood can provide. The handle also contains a loop so that you can quickly hook it away and prevent it from adding to the clutter of your kitchen, keeping your kitchen space tidy and your mind calm and at ease.

FOOD SAFE PLASTIC

Ensuring that the instruments you use to cook are of the highest possible standard is of paramount importance. Given that you can use these tools day in and day out, it is crucial that they do not contain any potentially harmful chemicals that can transfer to the food you eat. That is why we have been extra careful to ensure that this Subra range is made of the safest possible plastic, so that it will not only last well into the future but also provide you with safe food time and time again. This range can be used on any non-stick coating pots and pans.

EASY TO CLEAN

We do not want you to spend hours at the sink afterward when you would rather be spending time with your friends, family, and the people you love. That is why we have made sure that this Subra range is extra easy to clean so that you can quickly give it a scrub and then get back to relaxing after a well-prepared meal.

COOLER BAGS | COLLECTION

Felis
Polis

COOLER BAGS

Whether you're hitting the beach for the day or planning a picnic in the park, it's important to keep whatever foods and beverages you bring cool. Resto cooler bags are a great option, designed to keep your picnic goodies perfectly chilled and protected while out and about. Lightweight and comfortable to carry with dual padded carry handles or an adjustable shoulder strap, they are easy to tote around and fold nicely into your backpack or beach bag when empty.

These collections of cooler bags optimize everything in the direction of functionality and simplicity. The color of fabric has been especially chosen so that the bag will conduct less heat when placed in sunlight. Reliable fittings and 100% waterproof lining help create a range you can depend on.

Our Felis and Polis collections offer stylish, versatile and capacious cooler bags of varying sizes that are ideal for daily and long-distance travel, picnics and more adventurous activities. With these ranges, you will arrive with your items perfectly cooled and ready to eat and drink. Also, all models from the Felis and Polis collections are foldable and take up very little space in storage.

Felis Collection

COOLER BAGS

As all of our summers become hotter and hotter year upon year, it has never been so crucial to make sure that your food and drink is preserved in cool conditions when out for a picnic or day trip. Fortunately, our Felis collection offers you a stylish, versatile and capacious duffle cooler bag and lunch cooler bag of varying sizes that are ideal for the daily routine, long-distance travel, picnics and more adventurous activities. With this range, you will arrive with your items perfectly cooled and ready to eat and drink.

So do not worry about the temperature outside or how long you might have to travel to get to your destination, your Felis bag has you in good hands and will lead to the perfect afternoons with perfectly preserved meals, time and time again.

Felis Collection

100% LEAKPROOF LINING

With these Felis bags that are 100% leakproof in their lining both your car and your clothes will be free from getting splashed by any of unintended spillages.

HEALTHY FOOD INSULATION

We have been careful to create cooler bags which provide a healthy food insulation to keep your food, drinks and fruits fresh, so that you can enjoy your meals for school, work, picnic or travel. No matter which one of those activities you happen to be engaging you in, you know that when you take the food out of your bag, it will be as delicious as it would have been if it was taken right from your fridge.

DIRT-RESISTANT AND WATER-REPELLENT

These bags come with dirt-resistant fabric so that you are not constantly having to scrub the outside of the bag to make it presentable. That fabric also has a water-repellent nature to it so that your bag will not become weighed down by moisture and make for a tedious journey back home.

COMFORTABLE CARRYING

Felis cooler bags come with comfortable padded handles to make sure that even on the longest journey your hands are kept in comfort and ease. And to make this even more so the case, we have made sure some of Felis bags come with a Velcro fixation so that you can keep the handles enclosed together, making your grip even more firm. Some bags also have their own removable and adjustable shoulder strap.

Polis Collection

COOLER BAGS

Created out of ergonomically designed fabrics on the outside and a specially designed leakproof lining on the inside in case of spillages, Resto cooler bags are the perfect companions for your weekend getaway or picnic in the sun. A compact storage system makes the bag easy to store, while its light fabric has been specifically chosen to reduce thermal absorption. A dirt-resistant and water-repellent outer fabric will prevent your bag from becoming weighed down by moisture or clogged up with dirt. And a leakproof inner lining will stop your car or clothes from getting splashed by any unintended spillages.

0,93kg, 30L

Polis Collection

100% LEAKPROOF LINING

With these Polis bags, your car and clothing will be sure to be kept in perfect condition as the lining which is 100% leakproof will stop them from getting splashed by any unintended spillages.

LIGHT COLOR FABRICS

With this Polis range, everything has been created in order to create the ultimate picnic experience. This mission has been the core of the designing process and this is why even the fabric that was chosen has been selected because of its light color that has been specifically created to reduce thermal absorption. This means that even after a long journey in the car on a hot day you can rely on your food being the same or a very similar temperature to when you got it out of the fridge.

DIRT-RESISTANT AND WATER-REPELLENT

The fabric will not only keep your food cool but has been designed so that it will prevent your bag from becoming weighed down by moisture or clogged up with dirt. It is dirt-resistant and water-repellant so that should you end up selecting or being forced to select a place that happens to be slightly muddier than the optimum location then your bag will remain clean from dirt.

COMPACT STORAGE SYSTEM

In order to make your life as easy as possible, this bag offers you the kind of organization you need with a compact storage system that makes the bag easy to store on the way back and at home.
