Quick Reference Guide 50

The Sorbent Paper Company is one of the leading washroom suppliers in Australia and part of one of the largest vertically integrated pulp and paper companies in the world. They have as their strategic supplier partner, Asia Pulp and Paper (APP) with sustainable plantations including Indonesia and converting facilities across the globe manufacturing paper and tissue products.

In Australia, Sorbent Paper's Away-From-Home portfolio includes the global brand Livi and the premium B2B brand Sorbent Professional, delivering high-quality washroom and hygiene solutions for commercial environments. The portfolio is complemented by the market-leading Handee Ultra range, sold in bulk for professional use and Deeko, offering accessible and value-driven solutions for everyday business needs.

Sorbent was launched in Australia in 1952. Today, the Sorbent Professional range is designed specifically for businesses, providing a touch of home when you are away from home. Sorbent is ubiquitous with Australian bathrooms, providing extra luxury for discerning users. The Sorbent Professional range is designed to be soft, strong, and absorbent, delivering luxury in the most demanding work environments.

Livi is the market leading wholesale/business brand, globally recognised and distributed in 37 countries across 5 continents. Livi's excellence and scope of products, with two quality tiers of Everyday and Essentials, has made it an ideal choice for customers who value flexibility and cost-effectiveness without compromising on quality.

Handee Ultra is Australia's most absorbent paper towel. Proudly made in Australia, Handee is strong and absorbent, and is available for bulk purchase through Sorbent Paper's distributor partners.

In Australia, we have production facilities in Box Hill, Melbourne and in Greystanes, Sydney that include two tissue mills and 9 converting lines. We are supported by our key strategic supply partner, APP (Asia Pulp & Paper) who provide pulp, jumbo rolls and many finished goods from high-capacity mills across Asia.

We are one of the few vertically-integrated companies, owning the sustainable plantations, all the way through to the finished products, which provides control, efficiency, and flexibility.

What this means to our customers, is that we have both global and local scale and servicing right here in Australia.

100% Certified Sustainable

Environmental responsibility is critical to our business. As a socially, economically, and environmentally responsible company, we adhere to stringent Australian and international environmental laws, only sourcing our fibre from internationally certified suppliers:

- Independently certified by the world's largest forest certification program, PEFC (certifying two thirds of the worlds certified forests), guaranteeing products come from only virgin fibre and sustaomably-managed plantation forests.
- Tracing the chain of custody from plantation tree to the finished product at all production facilities.
- PEFC chain of custody ensures that claims about product's originating in sustainably managed forests are credible and verifiable throughout the whole supply chain.
- Controlled sources under PEFC guidelines – verification that the product has originated from a source that has been legally verified according to requirements under PEFC guidelines.
- The Indonesian ecolabelling institute (LEI) chain of custody certifies that the product is produced from a source that is managed based on environmental values, economic principles and social norms.
- Timber legality & traceability verification (TLTV) – an independent third-party verification that 'assures forest management companies as well as everyone else working within the timber supply chain that timber products are produced in compliance with the relevant legality and chain of custody criteria.
- Solaris Paper is audited annually by SGS Australia for compliance.

We use Rapidly Renewable Fibre from fast-growing eucalyptus and acacia trees that reach full height and maturity in only 6-8 years.

This enables shorter harvest cycles yielding more paper from more trees on less land and in less time.

That's true sustainability in paper!

For more information on PEFC chain of custody visit: **www.pefc.org/standards/chain-of-custody**

In February 2013, APP transformed its forestry and pulpwood operations, outlined in its Forest Conservation Policy (FCP).

This is important, not only for the sustainability of Solaris Paper products, but for the preservation of natural forests and the communities that live within and around them.

APP is committed that the wood fibre for our pulp making operations comes from sustainably-managed forestry sources, which conserves areas of natural habitat and respects the rights of local communities.

To implement this commitment, we will:

- Ensure that wood suppliers maintain compliance with all relevant regional, national, and international regulations for sustainable forestry and land use management.
- Ensure that a multistage environmental assessment process is conducted prior to plantation development. The environmental assessment process will meet or exceed the standard required by national law.
- Ensure that wood is properly checked and verified as to legal origin and chain of custody before it enters the mills.

In April 2014, APP announced an initiative to restore and support the conservation of one million hectares of rainforest across Indonesia – an area more than four times the size of the Australian Capital Territory (ACT). The initiative was developed with input from a number of stakeholders, sets a new standard in the protection of the world's valuable forests and ensures the future protection of endangered species.

Promoting Sustainable Forest Management
responsiblewood.org.au

Proud to be a Sedex Member

Solaris Paper and APP are committed to promoting sustainable development, which is economically, socially and environmentally responsible.

We are an active member of the United Nations Global Compact, committed to contributing to the UN sustainable development goals. We are compliant across our entire supply chain with the Australian Modern Slavery bill. We are also a member of Sedex, which ensures a responsible supply chain, with easy access to our annual reports.

We have a social responsibility to the communities in which we operate. In Australia, we are making a positive contribution to our local community by our contribution to Foodbank. We also regularly donate top-quality Sorbent toilet paper, as well as other products, that help frontline charities to support vulnerable Australians. We also donate our tissue, cardboard and stretch wrap to local recyclers to be made into recycled products.

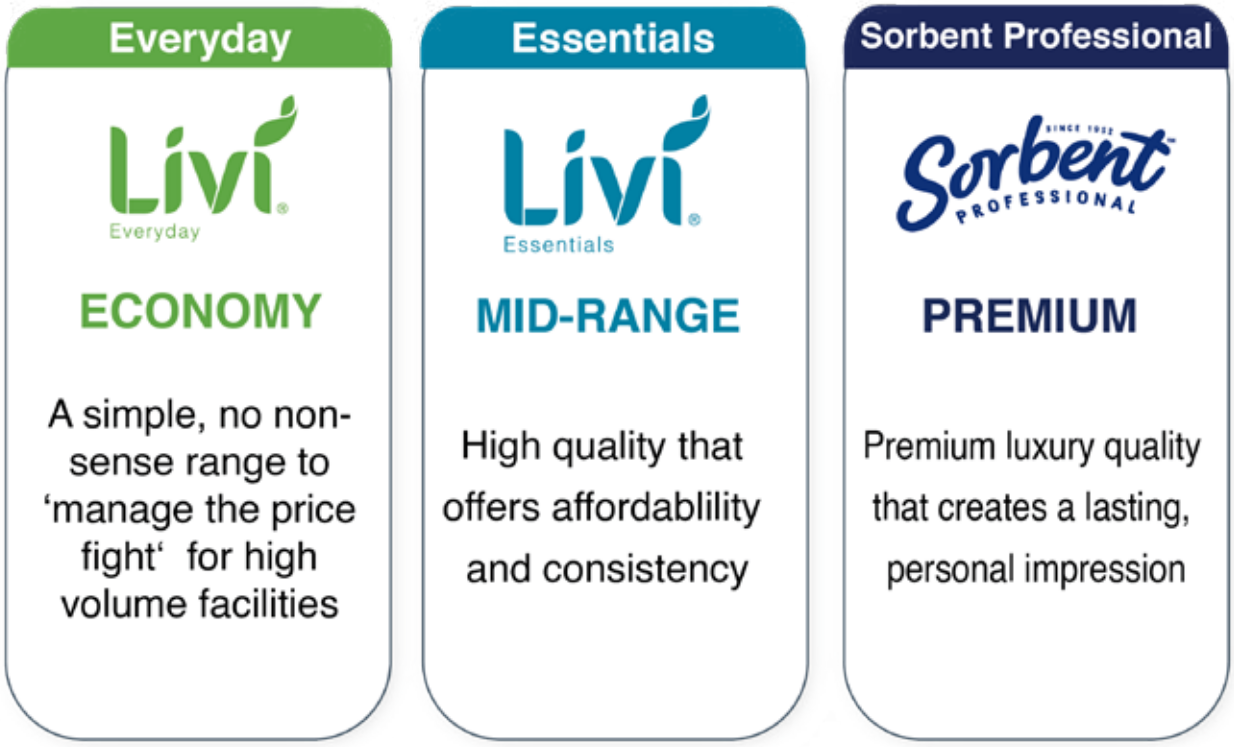

Livi

Livi

Discover the Right Choice for Every Space

We understand that every environment has unique needs, which is why our product range is designed to provide the perfect solution at every level. From **Everyday Essentials** to **Premium** experiences, our brand cater to a variety of requirements while maintaining the highest standards of quality and performance.

No matter the environment or budget, our brands are crafted to meet diverse needs with precision and care. Choose Livi Everyday for cost-effective practicality, Livi Essentials for balanced quality, or Sorbent Professional for the ultimate premum experience. With Solaris Paper, you'll always find the perfect fit.

Bringing the comfort of home to your business.

Sorbent Professional is designed specifically for the Away From Home market - made for the comfort of home when away from home.

Designed specifically for the needs of businesses and facilities. The range is designed to be soft, strong, and absorbent including:

- Toilet tissue rolls (individually wrapped) and jumbo toilet rolls, both with a lovely emboss

- Facial tissues with softness for sensitive noses

- TAD hand towel using Australian technology to create an interlock weave for improved absorbency; and

- Matching dispensers, free on loan with the purchase of Sorbent Professional products.

Kind on your sensitive skin and the environment too, with 100% independently certified sustainable fibre. Perfect for those washrooms where they expect a little more.

ULTRASLIM TOWEL

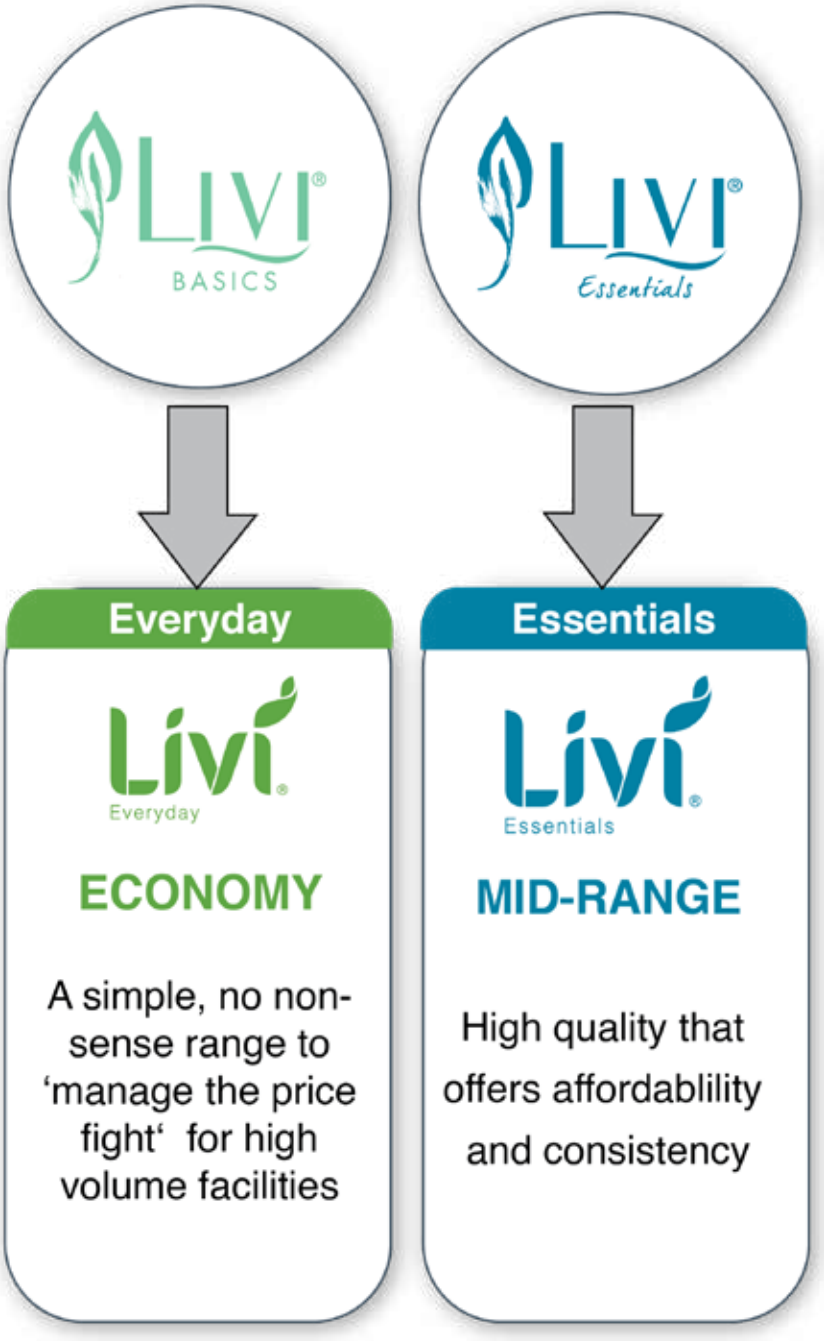

Livi® is well-known in world-class establishments, ranging from hospitals to resorts, restaurants to government institutions, corporate offices and schools, in 37 countries across 5 continents.

Livi®'s quality and scope of products has made it an ideal choice for businesses that value flexibility and cost-effectiveness without compromising on quality and hygiene.

New, fresh and modern branding

In 2021, Livi branding changed due to a global brand refresh. The new packaging phased in across 2022 and includes:

- Basics name changed to Everyday
- A change in logo
- Inner packs changed to reflect sub-brand style and colour

How to Use the Folded Towel Guide

Our Folded Towel Guide is designed to help you quickly identify the correct towel for your dispenser by compairing the width of your folded towel with the guided lines.

- Take a single folded towel and place it within the marked width guides on the sheet
- Match the width of your folded towel to the closest corresponding guide on the sheet
- Each width guide is labeled to help you identify the correct towel type
- Once you have identified the width, refer to our dispenser guide for matching dispenser
