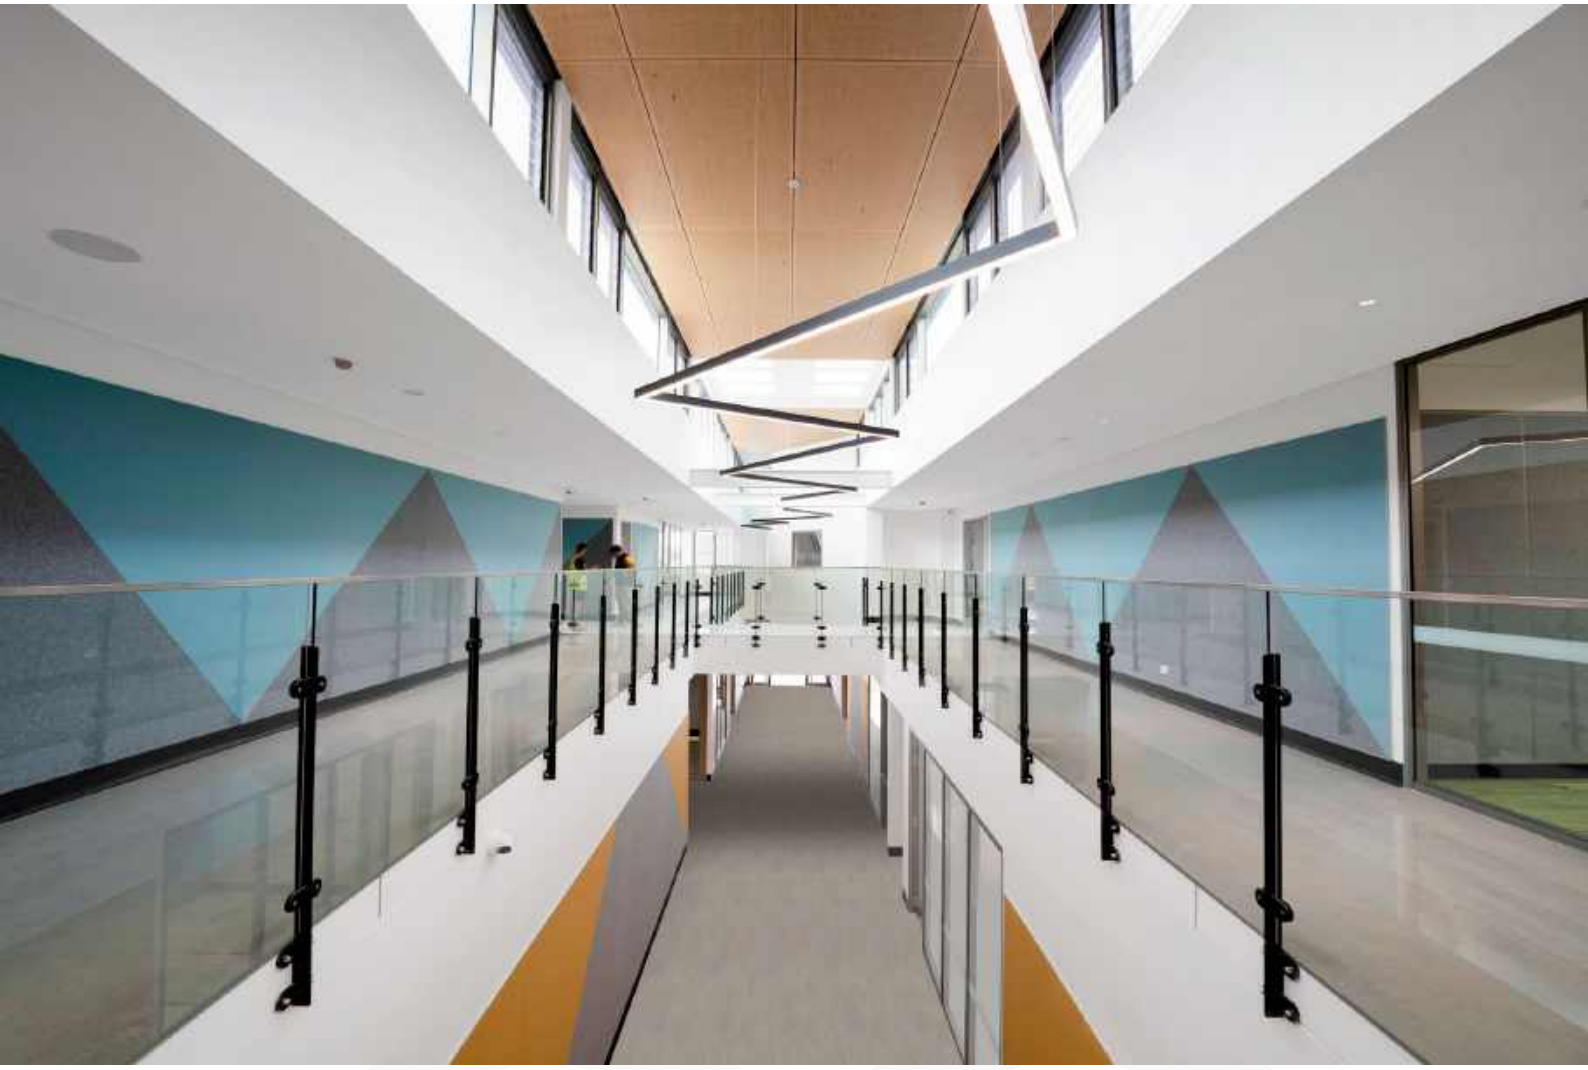
Architectural Wall Lining Guide



One wall system. One supplier. One accountable outcome.

VISIONCHART | ONE

Specification to Sign-Off

Visionchart delivers integrated wall lining systems — from early specification guidance through manufacture, supply, installation and final sign-off.

A single, accountable partner for acoustic wall linings and writable collaboration surfaces.

VISIONCHART | SANA

Acoustic Surfaces.

Acoustic surfaces help shape environments that feel quieter, more comfortable and more connected—supporting focus, communication and occupant wellbeing.

Visionchart acoustic panels are designed to integrate seamlessly within contemporary interiors, combining effective sound control with refined architectural finishes.

VISIONCHART | ONE

SANA Acoustic Panels — Specification Summary

SANA is a rigid PET acoustic panel manufactured from 60% recycled polyester fibre and 40% virgin polyester fibre, designed for functional performance and design flexibility. It is suitable for wall and ceiling applications, including grooving, CNC cutting and custom interior solutions.

Thickness	24mm or 12mm (±7%)
Sheet Size	2800 x 1225 (±5mm)
NRC	24mm panel: 0.7, 12mm panel: 0.45
Fire Rating	Group 1 fire rated to AS 5637.1, tested to ISO 9705
Formaldehyde Emission	0.00 µg/g

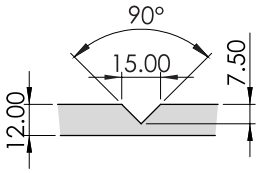
Fire Rated
Group 1
AS 5637.1:2015
AS ISO 9705 (R2016)

SANA Acoustic Colour Palette

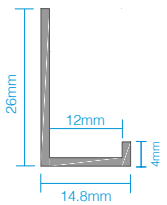
A versatile palette offering a balance of calming neutrals and bold accent options.

SANA Linea Acoustic Panels

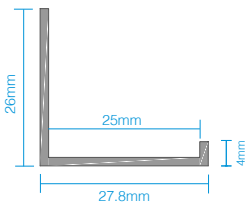
SANA Linea Acoustic Panels feature a precision V-groove profile that adds subtle texture and visual rhythm to interior spaces. Combining acoustic performance with a refined architectural aesthetic, Linea creates a clean, contemporary finish.



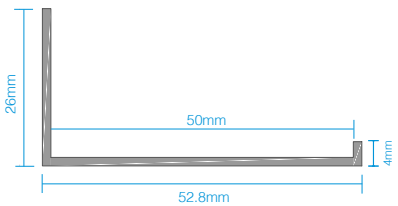
A slim aluminium edging system designed to deliver a clean, durable finish to SANA Acoustic Panels. Provides a defined perimeter, protects panel edges, and ensures a consistent installation outcome across wall applications.



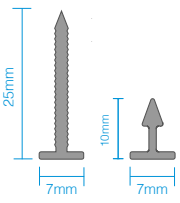
SANA 12mm



SANA 25mm



SANA 50mm



SANA Tee

Composition	Extruded Aluminium, Standard 3000mm lengths
Finish	Satin silver aluminium or black or white semi-gloss powder coat

VISIONCHART | Lumiére | EDGE LX9

Glassboard Surfaces.

Glassboard surfaces support communication, planning and visual thinking with durable, easy-to-clean writing spaces.

With Lumiére frameless and EDGE LX9 framed options, Visionchart glassboards suit both surface-mounted applications and integrated wall systems with SANA acoustic panels.

↓ Visionchart Lumiére

Lumiére *Frameless Glassboards*

Simple surface-mounted installation
Ideal where a premium writable surface is required without full wall integration.

Minimal architectural appearance
Frameless glass creates a clean, refined writing surface for contemporary interiors.

Clear visual communication
Low-iron glass provides a bright, easy-to-read surface for planning, teaching and collaboration.

Flexible project application
Suitable for workplace, education, healthcare and public interior environments.

Long-term surface performance
Durable, stain-resistant glass surface designed for consistent use over time with a 50 year surface warranty.

Surface	Magnetic Visionchart Brilliant White or Black
Sizing	9 Standard Sizes - 2 Standard Sizes Black Glass
Glass Finish	VISIONCOAT Ultraviolet Light Curing
Thickness	4.5mm Toughened Low-iron Magnetic Safety Glass

EDGE **LX9** *Framed Glassboards*

Integrated wall alignment
Slim EDGE frame allows glassboards to align neatly with SANA acoustic panels and adjacent wall finishes.

Flush-to-wall detailing
Designed for coordinated wall lining systems where clean junctions and precise set-outs matter.

Continuous writable zones
Creates entire walls of integrated writing surfaces for meeting rooms, collaboration areas, learning spaces.

Architectural frame finish
Low-profile frame detail supports a refined, built-in appearance in a range of powder coated colours.

Durable everyday performance
Glass writing surface is easy to clean, stain resistant and suited to high-use with a 50 year surface warranty.

Surface	Magnetic Visionchart Brilliant White
Frame	Slim EDGE aluminium with 4mm front lip (flush to wall)
Sizing	9 Standard Sizes - (Butt join for continuous wall)
Glass Finish	VISIONCOAT Ultraviolet Light Curing

VISIONCHART | EDGE

Writing Surfaces.

Writing walls and surfaces support connection, creativity and collaboration—fostering a sense of belonging and real human-to-human interaction in a digital world.

Visionchart whiteboards are designed to integrate seamlessly within SANA wall lining systems.

Visionchart Edge LX8 wall with black powder-coated perimeter and white powder-coated seams

EDGE LX8 EverWrite Porcelian Whiteboards

Premium heavy-use writing surface

Porcelain magnetic surface designed for long-term durability, excellent erasability and frequent daily use.

For high-use project environments

Ideal for workplaces, education spaces and collaboration walls where performance matter.with a 50 year surface warranty.

Large-format writable integration

Made-to-order sizing supports continuous writing zones within coordinated wall lining systems.

Surface	EverWrite porcelain magnetic - (Polyvision e3)
Sizing	Made-to-order sizes up to 3600 × 1200 mm
Fire Rating	AS 1530.3 Fire Tested

EDGE LX6 DuraWrite Magnetic Whiteboards

Reliable everyday writing surface

Painted steel magnetic surface designed for general-purpose writing and medium-use spaces.

Practical project solution

A cost-effective option for classrooms, offices, meeting rooms and standard collaboration areas.

Clean EDGE frame detail

Low-profile aluminium frame supports neat alignment with adjacent wall finishes.

Surface	DuraWrite painted steel magnetic writing surface
Sizing	Made-to-order sizes up to 3000 × 1200 mm
Warranty	8-year surface warranty

Commercial Installation Fit-Outs.

Typical Commercial Scope:

- High-density open-plan acoustics
- Integrated writing walls
- Feature CNC wall detailing
- Coordinated installation across multiple levels

Channel 9 – Head Office, Sydney

- Custom framed 50mm acoustic panels
- 30+ porcelain whiteboards
- Full integration across 9 levels

WeWork – Pitt St, Sydney

- 400+ acoustic panels across 10 levels
- 60+ LX6 whiteboards
- Delivered in 15 days

VISIONCHART | ONE

Government & Public Sector Projects.

Typical Government Delivery

- Group 1 Fire Rated (AS 5637.1)
- Installation coordination
- Ceiling integration
- Public sector site compliance

Service NSW – Glenmore Park, NSW

- 120+ acoustic ceiling fins installed
- Delivered within new public service facility
- Improved speech clarity in high-traffic service areas

Blacktown Hospital – NSW Health

- Custom CNC 12mm acoustic ceiling panels
- Integrated into existing ceiling grid system
- Installation within operational healthcare environment

Australian Museum – Sydney, NSW

- Custom CNC PET acoustic ceiling installation
- Sculptural acoustic feature across exhibition space
- Integrated with lighting and ceiling services
- Installed precisely to architectural & builder specifications

Education Spaces.

Typical Education Delivery

- Acoustic wall systems for learning environments
- Classroom and collaboration zone integration
- Durable finishes for high-use education spaces
- Safe, compliant materials for education facilities

Amity College – Leppington, NSW

- Custom CNC acoustic wall panels installed
- 12mm acoustic panel wall lining system
- Integrated across classrooms and circulation spaces
- Improved acoustic comfort for learning environments

College of Law – Sydney, NSW

- Acoustic wall panels installed across rooms
- LX8 porcelain whiteboards integrated with panels
- Flush installation within cabinetry and corridors
- Acoustic treatment for study and training spaces

Amity College – Custom CNC acoustic wall panels

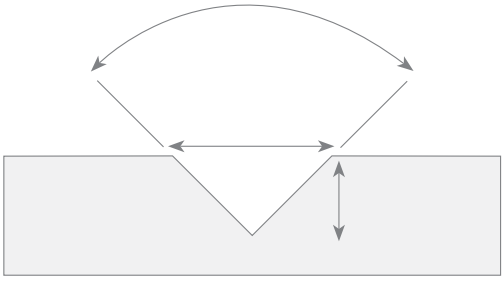
Amity College - Integrated whiteboard and acoustic surfaces

College of Law - Linea 'V'-groove acoustics with integrated LX6 whiteboards

Designed to Specification.

Architectural freedom, manufactured to design intent.

From concept to installation, custom CNC grooving delivers precise, repeatable patterns with consistent outcomes across every project.



90° Groove

Custom CNC Capability

- Custom groove patterns aligned to project design intent
- Repeatable layouts across panels for consistent installation
- Compatible with SANA Linea acoustic systems
- Designed for integration with collaboration surfaces and finishes
- Durable, compliant solution for high-use environments
