SANA Serenity
DESK SCREEN

CUSTOMISATION & CONFIGURATION OPTIONS

1

Measure your desk width.
Confirm your desk width before choosing.

2

Select your screen style.
Choose from 11 styles to suit different workspaces.

3

Select your screen thickness.
12mm for lighter privacy or 24mm for enhanced acoustic performance.

4

Select your screen colour.
Choose from four SANA shades to suit your space.

5

Select a clamp style.
Choose the clamp that suits your screen style and desk setup.

6

Select your clamp colour.
Choose from two finishes to complement your setup.

Installation considerations

- Check desk edge type and mounting compatibility before ordering
- Ensure screen dimensions allow for monitor arms, task lighting and power rails
- Best acoustic performance is achieved when screens are placed near noise or reflective surfaces
- Desk screen clamps are sold separately
- Screens under 1800 mm ship boxed. Freight charges apply
- Screens 1800 mm+ or bulk orders ship on a pallet. Freight charges apply

*Swatches featured are representative of the final product colours as close as the printing process allows.

DESIGNED FOR REAL WORKSPACES

Cut the Noise
Reduce echo and distractions so your team can focus better, even in the busiest office.

Create Your Own Space
No more awkward backgrounds on calls or constant visual interruptions. These screens give you clarity, privacy, and presence.

Designed to Fit In (or Stand Out)
Choose your shape, height, and colour. Whether you're designing a new fitout or updating existing furniture, these screens adapt perfectly.

Eco-Smart by Design
Made from 60% recycled fibres, they're built for sustainability – and proudly made in Australia.

Better Focus. Better Calls. Better Design.
Upgrade your workspace with Sana Serenity Desk Screens.
