

# Visionchart LX EDGE Whiteboards

## Better-looking whiteboards for modern spaces

Visionchart LX EDGE Whiteboards combine clean design, practical performance and flexible installation. With a slim 4mm edge, magnetic dry-wipe surfaces, and the ability to butt-join horizontally or vertically, the LX range is ideal for customers who want a smarter, more modern whiteboard solution.

| Feature                      | LX6 DuraWrite Whiteboard                                                   | LX8 EverWrite Whiteboard                                                                                           |
|------------------------------|----------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------|

### Why customers buy LX EDGE Whiteboards

- Modern slim-edge design gives the board a cleaner, more architectural look.
- Magnetic dry-wipe writing surface supports everyday communication and collaboration.
- Butt-join capability allows multiple boards to be joined horizontally or vertically for larger writing areas.
- 800mm aluminium pen tray included for practical day-to-day use.
- Standard sizes and custom options support a wide range of spaces and project needs.
- The LX8 upgrade option provides a premium matte porcelain surface that reduces glare and supports projection use.
