General Safety Warnings

For the safety of yourself and others, follow all instructions and take notice of all the warnings. When adhered to, these safety precautions can reduce the risk of fire, electric shock and injury. This product complies with Australian Safety standard AS/NZS 62368.1 to ensure the safety of the product.

The RCM is a visible indication of a product's compliance with all applicable ACMA regulatory arrangements, including all technical and record-keeping requirements.

IMPORTANT

Environment: Do not use this product where it is excessively hot, cold, dusty or humid, or where it is exposed to strong magnetic fields or long periods of sunshine.

Water: Do not expose this product to water; do not use it where it can fall into water (such as near a pool, pond, bath etc.).

Handling: Do not drop this product or shake it vigorously to avoid damaging it.

Accessories: Only use the device with the accessories that are supplied. Use of other accessories not recommended in this manual may cause damage to the product and will void your warranty.

Usage: Only operate the device according to the instructions in this manual. We assume no responsibility for faulty use or inappropriate handling.

Usage: The equipment is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction by a person responsible for their safety.

General Safety Warnings

Children: Supervise young children to ensure they do not play with the device inappropriately. Close supervision is necessary when the device is used by or near children.

Cleaning: Clean the housing of the device lightly with a dry or moist cotton cloth. Do not use alcohol, thinners, benzene or any other chemical cleaners.

Damage: In case of damage, contact the After Sales Support line for advice.

Disposal: Observe local regulations and dispose of this device appropriately for recycling. Contact your local authorities for advice on facilities.

Unpacking the product: Unpack the product and keep the original packaging carton and materials in a safe place. It will help prevent any damage if the product needs to be transported in the future, and you can use it to store the product when it is not in use.

Climate: If moving the product from one location to another, for example from a cold environment to a warm one, allow sufficient time for the apparatus to acclimatise to the new location before switching on. In tropical climates, keep the air surrounding the unit sufficiently dry to avoid condensation forming.

Accessories: Only use the device with the accessories that are supplied. Use of other accessories not recommended in this manual may cause damage to the product and will void your warranty.

MAINTENANCE

Keep the device dry. Do not let the device to come into contact with water vapour or operate it with wet hands. Contact with water will cause the device to short-circuit, corrode or cause electric shock.

Do not shake the equipment excessively, which may cause device failure, fire or explosion.

Do not expose the device to very low or very high temperatures, which may cause device failure, fire or explosion.

Do not disassemble the device and accessories. Disassembly by unauthorised persons will void the warranty.

SAFETY

Do not use the device while driving, so as not to impede safe driving regulations.

In health facilities, observe the relevant rules or regulations. Turn off the product in the vicinity of medical devices.

Obey all regulations when boarding an airplane in order to avoid interference with aircraft radio signals.

Stay away from magnetic equipment; product radiation may erase the information stored on the device.

Remove and immediately recycle or dispose of used batteries according to local regulations and keep away from children. Do NOT dispose of batteries in household trash or incinerate.

Even used batteries may cause severe injury or death.

Call a local poison control center for treatment information.

Non-rechargeable batteries are not to be recharged.

Do not force discharge, recharge, disassemble, heat above (manufacturer's specified temperature rating) or incinerate. Doing so may result in injury due to venting, leakage or explosion resulting in chemical burns.

Ensure the battery is installed correctly according to polarity (+ and -).

Remove and immediately recycle or dispose of batteries from equipment not used for an extended period of time according to local regulations.

WARNING: If the battery compartment (if applicable) does not close securely, stop using the product and keep it away from children.

WARNING: If you think batteries might have been swallowed or placed inside any part of the body, seek immediate medical attention.

Do not change or modify the appliance in any way.

Only use the attachments/accessories specified by the manufacturer.

Disposal of a battery into fire or a hot oven, or mechanically crushing or cutting of a battery, that can result in an explosion.

Leaving a battery in an extremely high temperature surrounding environment that can result in an explosion or the leakage of flammable liquid or gas.

A battery subjected to extremely low air pressure that may result in an explosion or the leakage of flammable liquid or gas.

Responsible disposal of the packaging

The packaging of your product has been selected from environmentally friendly materials and can usually be recycled. Please ensure these are disposed of correctly. Plastic wrapping can be a suffocation hazard for babies and young children, please ensure all packaging materials are out of reach and are safely disposed of. Please recycle these materials rather than throwing them away.

Responsible disposal of the product

At the end of its working life, do not throw this product out with your household rubbish. An environmentally friendly method of disposal will ensure that valuable raw materials can be recycled. Electrical and electronic items contain materials and substances which, if handled or disposed of incorrectly, could potentially be hazardous to the environment and human health.

Getting Started

Before first use

- Unpack the product and accessories and ensure all parts of the product are undamaged and in good working order. Keep the original packaging carton and materials in a safe place. It will help prevent any damage if the product needs to be transported in the future, and you can use it to store the product when it is not in use. In the event that the packaging is to be disposed of, please recycle all packaging materials where possible.
- Plastic wrapping can be a suffocation hazard for babies and young children, so ensure all packaging materials are out of their reach and disposed of safely.
- Do not use the product if any part is damaged or not working properly. In case of damage, contact our after sales support line for advice.
- Read this manual to familiarise yourself with the product. Pay particular attention to the safety instructions on the previous pages.

What's in the box:

- 3-in-1 multifunctional NIGHT LIGHT
- USB-C Charging Cable
- Instructional Manual
- Warranty Card

Product Overview

- 1 Function Buttons
- 2 Night Light Switch
- 3 Charging Light Indicator
